

IHRM - Human Resource Management - BWIg011

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Sonderegger Andreas, Straub Caroline
Module responsibility	Caroline Straub
Short description of the module	The module IHRM explains how successful companies manage human resources in order to compete effectively in a dynamic, global environment. It combines the relevant aspects from work and organizational psychology, human resource management and international labor law.
Requirements	<p>Problem-solving competences: Students - bring initial problem-solving skills and can carry out a situation analysis.</p> <p>Social skills: Students - bring basics of teamwork skills</p> <p>Self-management: Students - bring basics of time management skills</p> <p>Dealing with complexity: Students - bring the basics to work on cross-topics.</p>
Competencies upon completion	<p>Technical competencies: Students - know the main topics within the areas of work and organizational psychology, HRM and labor law; - can explain the interplay of concepts and instruments from work and organizational psychology, HRM and labor law; - precisely reproduce technical terms from the three subject areas and can apply them to analyse work-related situations.</p> <p>Problem solving competencies: Students - recognize employees in the company as a competitive resource and the strategic importance of personnel-related activities as a consequence; - can use their theoretical knowledge to solve concrete practical situations; - know how to research additional information to expand their knowledge.</p> <p>Collaboration: Students - get to the bottom of things by asking lecturers and / or colleagues; - can discuss constructive solutions in the group. - learn to work in a cross-cultural team</p> <p>Self-management: Students - plan their knowledge development independently; - develop personal judgment, analysis and decision-making skills.</p> <p>Dealing with complexity: Students - know methods in the context of agility</p>

IHRM - Human Resource Management - BWlg011

Teaching and Learning method	<ul style="list-style-type: none"> - 1h video podcast (asynchron) plus 3h contact lectures (synchron) onsite per week. - Self-study and case study to prepare for exam over the term - Coaching during lectures on topics related to personality / motivation, interviewing etc.
Literature	<p>Required readings will be posted on Moodle for each session.</p> <p>Suggested text book for review in BFH library:</p> <p><u>Work and organizational psychology</u> - Robbins & Judge (2018) Essentials of Organizational Behavior, 14th Edition, global edition. Pearson (can be found in BFH library)</p> <p><u>Human resource management</u> - Jackson & Schuler (2018) Managing human resources, 12 th Edition, New York : Oxford University Press (can be found in BFH library including older versions)</p>
Workload	6 ECTS credits (180 hours)
Contact lessons	Weekly - 14 times, regular semester time (Each week students receive a 45min podcast lecture (asynchron at home) followed by 3h of lessons at school)
Attendance requirement	First lecture, rest of lecture none.
Proof of competence	<ul style="list-style-type: none"> - An online multiple-choice exam of 60 minutes during regular exam period (CW 26/27) - weighth 100%, individual grade as the module delivers HR, OB and Labor Law knowledge and needs to assess whether students understand the basic concepts at hand.
Aids for written examination	<ul style="list-style-type: none"> - Text Code of Obligations; highlightings and post-its are allowed; but notes of any kind are not permitted - printed dictionary mother tongue - English <p>For details to the aids allowed during written exams see "written examination regulations".</p>
Continuative, in depth modules	<p>Leadership Mindfulness & Positive Psychology Managing people globally Sustainable Business</p>

IMAR - Marketing - BWIg005

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Rose Stefan, Waldenmeyer Zoé
Module responsibility	Stefan Rose & Zoé Waldenmeyer
Short description of the module	<p>This module will provide you with a fundamental understanding of how firms develop marketing strategies for their products and services and how they implement these strategies through specific marketing instruments. In addition, you will be enabled to consider the client as the centre of all marketing activities and to provide value and benefits in a way that customer acquisition and retention can be built within the digital age. You will learn to manage marketing challenges within fast changing trends and topics. Moreover, the course will also cover the principles of B2B-Marketing, marketing of services, and international marketing. Complementary to the transfer of theoretical knowledge, you will benefit from guest lecturers who will enrich the module with vivid insights into their daily professional practice.</p>
Requirements	Basic business know-how, solid command of English language
Competencies upon completion	<p><u>After successful completion of the module you will:</u></p> <ul style="list-style-type: none">- understand the importance of marketing within the micro-economic business context- hold the knowledge required to make substantiated marketing decisions in different contexts- be familiar with the participants of a market and how to serve them- have acquired the fundamentals relevant to study further marketing modules <p><u>You will acquire the following methodological competencies :</u></p> <ul style="list-style-type: none">- knowing and applying the specific tools needed to carry out a marketing analysis- application of decision related marketing-tools- application of these methods in diverse marketing contexts. <p><u>Social and personal competencies:</u></p> <ul style="list-style-type: none">- reflecting on marketing related activities and their implications for your business and the consumers- Identify and contribute with your individual strengths to develop solutions as an active member of a team

IMAR - Marketing - BWIg005

Content

Shaping Marketing Strategies:

- Key aspects of a successful marketing strategy
- Analysis of the initial strategic situation
- Formulation, evaluation, and selection of marketing strategies
- Managing marketing information to gain customer insights

The Marketing Mix:

- Product decisions & innovation management
- Brand management
- Pricing decisions
- Sales decisions
- Communication decisions & engaging costumers

Marketing in Specific Contexts:

- Business-to-Business marketing
- Marketing of services
- International marketing

Marketing Implementation:

- Marketing and sales management

Teaching and Learning method

Video-Lectures
Excercises
Discussions
Self-study
Group work
Guest lectures

Literature

The module is based on:

Homburg, C., Kuester, S., Krohmer, H., (2013): Marketing Management: A Contemporary Perspective, 2nd edition. UK, McGraw-Hill

Workload

180 hours

Contact lessons

12-13 Video-lectures discussing the relevant principles and concepts of marketing
12-13 Live sessions to elaborate on the content of the lectures through exercises, discussions and case studies

Attendance requirement

Mandatory attendance for kick-off session and guest lectures.

Proof of competence

written exam, online, multiple choice, 90 minutes, 100% (CW 25-27)

IMAR - Marketing - BWlg005

Aids for written examination

BFH calculator (TI-30 ECO RS)
Dictionary in mother tongue - examination language

For details to the aids allowed during written exams see "written examination regulations".

Mode of repetition

IEN2 - Business English 2 - BWlg003

ECTS	3
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Bennie Ross, Faminoff Mangold Valerie
Module responsibility	Valerie Faminoff, Ross Bennie
Short description of the module	<p>The IEN2 module:</p> <ul style="list-style-type: none"> - develops CEFR C1 level English communication skills in advanced business vocabulary, listening, and business writing - follows and complements IEN1
Requirements	<ul style="list-style-type: none"> - Vocational baccalaureate diploma - CEFR B2+ level of English - Previous completion of, or exemption from, IEN1 expected for internal BFH-W students.
Competencies upon completion	<p>The goal of IEN2 (in combination with iEN1 the previous semester) is to bring students proficiency in business English communication to an advanced level. This underpins their studies in the rest of the degree programme and allows them to act more effectively in the business world on completion of their studies.</p> <p>Specialised skills</p> <ul style="list-style-type: none"> - produce accurate and appropriate business English vocabulary - demonstrate ability to write in clear and concise business English <p>Problem solving/design thinking (related: methodological competence)</p> <ul style="list-style-type: none"> - develop and practise listening skills suited to different situations - solve classroom discussion problems <p>Collaboration (related: social skills)</p> <ul style="list-style-type: none"> - group discussion (physical and digital) - comparing notes <p>Self-management (related: personal skills)</p> <ul style="list-style-type: none"> - independent self study - manage time and stress effectively <p>Dealing with complexity</p> <ul style="list-style-type: none"> - recognise, understand, choose, and apply appropriate business English vocabulary - assimilate background information and respond in writing, in a timely and accurate manner in an appropriate register

IE N2 - Business English 2 - BWI g003

Content

14 x 90-minute weekly classes; attendance optional, apart from:

- two Moodle tests

- one 90-minute class allocated to a midterm writing test of vocabulary during class time

see **Teaching and learning method** below for **typical learning cycle** in class:

- lecturer input and/or student self-study on listening strategies and writing techniques
- vocabulary themes: logistics, company finance, global economy, competitive strategy, marketing, business writing

Teaching and Learning method

The course exercises all six levels of Bloom's taxonomy; for example:

- identify and recall business English vocabulary
- rewrite and paraphrase vocabulary in required course literature exercises
- activate and apply learned vocabulary in discussion and use it to solve problems
- compare and contrast different business approaches
- set up talking points for informal presentations
- evaluate and critique peer writing-practice classwork

A typical learning cycle would be:

- individual self-study: learn the vocabulary of international trade tariffs in the required literature
- guided self study: prepare arguments either for or against free trade
- in class the following week: activate the prepared vocabulary in group discussion and problem solving
- additional lecturer input or practice of writing tips, listening skills, etc.
- identify vocabulary to be prepared and topic to research for the next class

Time proportions (3 ECTS, 90 hours):

30% contact lessons

30% individual self study: vocabulary

15% writing practice & feedback

15% guided self study: online research of informal group presentation/discussion themes

10% pre-exam review

Literature

Required ([same as for iEN1](#))

- [print and ebook version](#) for Android & iOS tablet users: **Bill Mascull (2017) Business Vocabulary in Use Advanced, Third Edition** (with answers & enhanced ebook, including audio) Cambridge University Press, ISBN-10: 1316628221 / ISBN-13: 978-1316628225

OR

- **Bill Mascull (2017) Business Vocabulary in Use Advanced, Third Edition** (with answers) Cambridge University Press, ISBN-10: 131662823X / ISBN-13: 978-1316628232

Workload

90 hours

Contact lessons

2 x 45 minutes, weekly during semester
half classes, mixed groups of full- and part-time students

IEN2 - Business English 2 - BWIg003

Attendance requirement

There is no obligatory attendance requirement for IEN2, but students are recommended to attend at least 50% of classes to familiarise themselves with the techniques required if they wish to complete the course successfully.

While there is no obligatory attendance requirement, the two vocabulary tests and midterm writing test take place during class time, so no student should plan not to attend any classes.

Absences covered under Art. 22 of the "Rahmenreglement für Kompetenznachweise an der Berner Fachhochschule (KNR)" e.g. military, accidents, illness, funerals, etc. will be exempted from this ruling. However, you must give proof of the validity of your absence (doctor's certificate, military orders etc.) to your lecturer in the first class after the absence. Note that absences related to work or problems with transport are not covered by this article.

Proof of competence

listening

- two-part multiple-choice test in written exam in evaluation period at end of semester (CW26/27), combined with reading comprehension exam (see below).

vocabulary

- two 15-minute Moodle vocabulary tests (multiple-choice cloze) in class time during the semester (BYOD).

writing

- 45-minute midterm writing test during the semester.

reading comprehension

- multi-part comprehension tasks, testing various aspects of reading included in written exam in evaluation period at end of semester (CW26/27), 90 minutes. Hybrid exam with texts printed on paper, but questions and answers on Moodle (BYOD).

final exam (60%)

midterm email writing test (20%)

two vocabulary tests (20%)

All assessment is individual. No group assessment.

Aids for written examination

None permitted.

Mode of repetition

1. Repeat students have to repeat the final exam.
2. Repeat students have the option to transfer any previous vocabulary test grade(s).
3. Repeat students have the option to transfer the previous mid-semester writing grade.

Continuative, in depth modules

None.

IACS - Academic Skills - BWI008

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Jarchow Thomas
Module responsibility	Thomas Jarchow & Cyril Imhof
Short description of the module	<p>The module Academic Skills teaches the scientific research and work skills needed for studying at the BFH W. This includes dealing with literature, writing papers and reports, conducting studies, handling data, and presenting results. The aim is to apply and practice the acquired knowledge directly to build the scientific working skills throughout the course.</p>
Requirements	<ul style="list-style-type: none">• Vocational baccalaureate diploma or equivalent knowledge
Competencies upon completion	<p>Professional competencies:</p> <ul style="list-style-type: none">• How to deal with scientific literature and sources (online and offline).• Plan and carry-out a scientific study (face to face, online, etc. as surveys, interviews, experiments).• Create scientific work collaboratively. <p>Problem Solving/Design Thinking:</p> <ul style="list-style-type: none">• Develop research questions, research designs, operationalize variables, etc.• Use an iterative approach to adapt the solution to the needs and problem solving.• Apply different methodological approaches and procedures. <p>Collaboration:</p> <ul style="list-style-type: none">• Implement and conduct a group project.• Coordination within your group and your individual tasks.• Deal with "test subjects" in different contexts. <p>Self-management:</p> <ul style="list-style-type: none">• Independent research and work.• Independent testing of own competences.• Critical questioning and critical thinking. <p>Dealing with complexity:</p> <ul style="list-style-type: none">• Iterative problem solving as a strategy.• Usage and application of (some) digital tools to deal with complexity.

IACS - Academic Skills - BWlg008

Content

The module Academic Skills teaches the basics for scientific work at the BFH W. This includes:

Literature:

- Search and find sources, document the searches, evaluate quality of sources.
- Use sources to argue with ideas and concepts of other scientists.
- Read papers with different focus, apply criteria-based evaluation, classify sources, etc.

Writing:

- Build and use the structure of a scientific paper.
- Discuss ideas of other scientists and argue pro and cons of different positions. This includes the correct referencing of sources (APA), the correct use of graphical artifacts in the text, and adding of indexes, and tables of contents, etc.

Research:

- Develop, prepare, conduct, and evaluate a scientific study.
- Describe, visualize, and discuss the results, with adequate scientific terminology and vocabulary.

Organize:

- Apply effective strategies for planning, execution and evaluation of your study and literature work.

Created artifacts:

- In the individual "literature-work", students prepare the basis for the study and the resulting "research-paper", which they produce as a group.
- The literature work is handed in and evaluated separately. It includes search, evaluation and summary of the sources used.
- The individual literature work must be coordinated within the group in such a way that it can be used for the introduction, methods, or discussion of the research-paper.
- For the research paper, groups of 3-5 students conduct a study (e.g., interviews, online survey, experiments, etc.).

Teaching and Learning method

Content in two parallel but interdependent strings:

- Individual work: Written presentation of the artifacts of literature work (search strategy, search criteria, hit list, summary of sources).
- Group work: Written research paper on the conducted study (design and conduct of the study, evaluation and presentation of the results and writing it down as a research paper).

Throughout the semester: from theory to application.

- First half of the semester "Theory": basics (for understanding), plus small exercises (for application) and coaching (for clarification); focus on topic identification and literature work.
- Second half of the semester "Research": further practical exercises and "own" work packages.

IACS - Academic Skills - BWlg008

Literature

The materials are made available on Moodle (slides, presentations, video, etc.)

Mandatory books are:

- Bell, J., & Waters, S. (2018). Doing your research project: A guide for first-time researchers (7th). Maidenhead: Open University Press. ISBN: 978-0-335-24338-9.
- Yin, R. K. (2014). Case Study Research: Design and Methods (5th). London: SAGE Publications. ISBN: 978-1452242569.
- Publication Manual of the American Psychological Association (Seventh edition). (2019). American Psychological Association. ISBN: 978-1-433-83217-8.

Yes, mandatory literature can be used for all your future courses at BFH and in many other academic settings as well.

Workload

6 ECTS require 180h effort:

- 30-40h face-to-face lessons
- 30-40h coaching
- 100-120h group and self-study
- online tasks/tests for self-evaluation and units for self-paced learning will be provided

Contact lessons

30-40h face-to-face lessons

30-40h coaching (face-to-face or online)

Attendance requirement

-

Proof of competence

All proofs of competence are handed in on moodle.
Exact time and date will be made available on moodle in the first two weeks of semester.

During the term:

- Individual online exams during class, which count for 15% of final grade.

Mid-term:

- You hand in your individual literature work, which counts for 50% of final grade.

End of term:

- Your hand individual self-reflection about your learning and the group work in the course, which counts for 5% of final grade.
- A group research-paper, which counts for 30% of final grade.
The grade of the group research paper has two parts: (1) 15% individual and (2) 15% as group.

Aids for written examination

No aids for written exams.

Mode of repetition

Re-take the course in next semester.

ISTO - Strategy & Organization - BWI010

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Braun Aron, Noppeneys Claus
Module responsibility	Aron Braun, Claus Noppeneys, Pascal Dey
Short description of the module	<p>In this module students become familiar with the basic concepts and methods of Strategic Management and Organizational Design. They learn how companies try to understand and adapt to a continuously changing environment and take the right decisions and implement appropriate measures in order to stay successful in the long run.</p> <p>The course provides insights into different theories and methods for analysing the external environment and the internal properties of a company, for understanding the various ways in which culture influences the company's strategy, for developing and implementing a new strategy, for accordingly adapting the organizational structure and for leading the company through critical phases of change.</p> <p>The students get the opportunity to practise the application of the presented theory on selected case studies about different industries.</p>
Requirements	No special requirements; open for incoming students and students from BWI
Competencies upon completion	<p>This module aims at imparting the following set of competencies. The students</p> <ul style="list-style-type: none">• know the main topics and terms within the areas of Strategic Management, Culture and Organizational Design• are able to explain both the difference and the relationship between the different terms and concepts introduced in this module• understand why and how a company must support the implementation of a specific strategy with an appropriate organizational design• understand what geographical, field-level and organizational culture is, and how they are related to the corporations strategy• can apply selected methods and concepts of Strategic Management, Culture and Organizational Design for analyzing practical business cases and discussing strategic issues• start recognizing the relevant strategic themes and patterns when reading a newspaper article about a company• know about the limitations and weaknesses of the imparted concepts• learn to ask the right strategic questions when analyzing a given company• develop a sense for the complexity and ambiguity inherent to strategic questions in practice• are able to think about strategic topics in an accurate, coherent and concise way
Content	Basic topics of strategic management in the areas of strategy analysis, strategy development and strategy implementation.

ISTO - Strategy & Organization - BWlg010

Teaching and Learning method	The module uses a variety of teaching methods. Some sessions are based on intensive case discussion class. The cases are prepared beforehand by the students. Other classes might involve a practitioner's input or the discussion of a film or excises or exploratory research adventures. Videocasts capturing key elements of the corresponding chapters are provided online. The module requires thorough preparation and depends on student interaction in class.
Literature	Mandatory reading: Johnson, Whittington, Scholes, Angwin, Regné: Exploring Strategy, 12th edition, 2020, Pearson.
Workload	6 ECTS
Contact lessons	Weekly contact lessons. The content required for the individual lessons will be announced in advance and must be worked through individually using the book before the corresponding lesson. In addition, a corresponding videocast will be made available on Moodle approximately one week before the lesson. The lessons are then used to consolidate the content from the book, practise its application using practical examples and also address further questions. The first week of the semester is used to explain the structure, content, learning objectives and examination modalities of the module. In the last week, students receive further information regarding the final examination.
Attendance requirement	Mandatory attendance during the first session of the course. The course is conducted based on voluntary student participation.
Proof of competence	Written exam: the graded final exam at the end of the semester (CW26/27) determines the final grade. The exam will take place as an online exam (bring your own device). It is a multiple choice exam. The lecturers will inform you about the details during the last week (semester week 14). Duration of the exam: 90 minutes
Aids for written examination	<i>For details to the aids allowed during written exams see "written examination regulations".</i>

IACC - Accounting - BWlg001

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Foundation level
Lecturer(s)	Zihlmann Christian
Module responsibility	Christian Zihlmann
Short description of the module	<p>On one hand IACC establishes the basic knowledge regarding accounting. Its aim is to present the basic rules of accounting. The course will focus on the main current economic transactions and on the understanding of the balance sheet, income statement and cash flow statement.</p> <p>On the other hand, students learn how costs behave, can create cost-volume-profit analyses and apply data analysis tools to analyze cost behavior.</p>
Requirements	Basic knowledge of financial mathematics and English
Competencies upon completion	<p>Subject: Students</p> <ul style="list-style-type: none"> - understand accounting rules - understand the financial statements structure and goals - know, how organizations benefit from cost accounting - know, how costs behave - are able to establish and interpret cost-volume-profit analyses - know the characteristics of job costing and are able to apply this concept. <p>Method: Students</p> <ul style="list-style-type: none"> - are able to apply accounting rules for specific problems/cases - are able to establish financial statements - are able to select, compute and interpret the relevant key data needed for specific management decisions based on the content of this module <p>Social: Students</p> <p>are able to apply the course content to real business situations by means of collaborative learning and use their personal resources as well as the ones of their group</p> <p>Self: Students</p> <ul style="list-style-type: none"> - are able to transfer the learned content to real business situations and able to critically reflect on models, tools and action patterns - develop their personal ability to analyze and assess situations and take decisions - discover gaps in their own knowledge through an autonomous and self-guided learning process and are able to close these gaps through self guided study

IACC - Accounting - BWlg001

Content	<p>Financial Accounting:</p> <ul style="list-style-type: none"> - Introduction conceptual framework IFRS - Basis of accounting - Income accounting, COGS, amortization, end of the year closing procedure - Net income calculation - Articulation among different financial statements <p>Managerial Accounting:</p> <ul style="list-style-type: none"> - Cost terms and purposes - Cost-volume-profit analysis - Determining how costs behave - Data Analytic thinking - Decision-making
Literature	<ul style="list-style-type: none"> - Students receive an access code to the Accounting Lab with all necessary documents - The additional material provided by the lecturer on the moodle platform
Workload	180 hours
Contact lessons	56 lessons (14 weeks x 4 lessons per week)
Attendance requirement	-

IECO - Economics - BWIh005

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Advanced level
Lecturer(s)	Fernandes Ana, Foord Daniel, Gimeno Raúl Diego
Module responsibility	Prof. Dr. Ana Fernandes, Raul Gimeno, Daniel Foord
Short description of the module	<p>This course builds on The Environment of the International Firm and provides an overview of basic and intermediate economic concepts, market instruments for regulatory intervention, problems as well as solutions, both at the micro and macroeconomic levels.</p> <p>At the microeconomic level, we will first study the foundations of the familiar "laws" of demand and supply and learn about firm costs and profit-maximizing behaviour in a competitive environment. We will then learn how firms modify their strategic positioning in response to the competitiveness of the market in which they operate. Through the economics of labor markets, we will gain an understanding of reasons why wages vary across individuals. We will get an introduction to the economics of gender and, more generally, to the topic of diversity & inclusion in the international firm. We will wrap up the microeconomics part of the course by opening a window into the areas of information and behavioural economics, topics which the interested student may pursue in the future.</p> <p>At the macroeconomic level, some core concepts are discussed: How to measure the GDP and what are the shortcomings of GDP. How to measure the inflation rate and what is the resulting inflation bias. How to measure the unemployment rate and what are the possible causes? What is the purpose of monetary policy? What is the aggregate supply and demand and why they play an important role in macroeconomics.</p>
Requirements	Having taken IEFI preferred but not compulsory

IECO - Economics - BWIh005

Competencies upon completion	<p>Students:</p> <ul style="list-style-type: none"> - Are exposed to and understand important concepts anchored around real-world problems and trends relevant to the international firm - Are able to frame current economic issues -- such as global warming, diversity and inclusion -- using an appropriate economic framework and vocabulary - Understand the main trade-offs in sustaining collusive behaviour in a cartel using the tools of game theory - Can identify problems and propose methods and solutions to address real-life challenges faced by the international firm in relation to the topics covered in the course - Understand core concepts in macroeconomics and can make associations to real world problems - Understand the usefulness and limitations of some macroeconomic indicators like GDP, inflation and, unemployment <p>Method: Students</p> <ul style="list-style-type: none"> - Learn to systematize events into their main components along the subject lines corresponding to course content - Acquire problem-solving skills <p>Social: Students</p> <ul style="list-style-type: none"> - Gain social competences through peer interaction and discussion of course related topics and study cases with colleagues <p>Self: Students</p> <ul style="list-style-type: none"> - Advance in their critical understanding of socio-economic phenomena shaping the environment of the international firm - Further their understanding of topics affecting the global economy - Become better able to assess the challenges faced by leaders of international organizations and their social responsibilities - Learn about their future preferred positioning and career type in the context of the international firm
Content	<p>Individual, independent study using conventional or digital learning materials</p> <ul style="list-style-type: none"> Lectures Seminars Guest lectures Case studies Regular assignments for self-study and in-class discussion
Teaching and Learning method	<p>Learning materials (book, case studies, videos, websites, ...)</p> <p>Digital platforms such as Moodle, MS Teams,</p>

IBLW - International Business Law - BWiH004

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Advanced level
Lecturer(s)	Suppa Giovanni
Module responsibility	Giovanni Suppa
Short description of the module	<p>The Module gives an overview of the organization of the federal state / confederation; the module will focus within the first part on fundamental rights and the organization of federal state, cantons and communes. Further, in the second part, the module provides students with an introduction to the law of contracts, torts and unjust enrichment. It deals with the general legal principles governing these areas of private law as well as with a variety of specific types of contracts. The course is based on Swiss law and these principles are best demonstrated by the teaching of Swiss law and are recognizable outside of Switzerland with very little effort. In the third part, a particular focus is placed on contracts used in the business world such as e.g. the purchase contract. Using practical materials, it will focus on a range of legal topics and associated business risks arising in the national/international context, such as typical risks within a contract, international sales transactions, the protection and licensing of intellectual property, international dispute resolution and typical clauses for specific risks.</p>
Requirements	none
Competencies upon completion	<p>Subject: Students will gain an understanding of the legal principles governing the laws of contracts, torts and unjust enrichment. They will get a sense of the national as well as of the international aspects of these fields of law.</p> <p>Method: Students will learn how to read and interpret legal codes, court decisions and specific contracts. They will read selected material from legal literature.</p> <p>Social: Students will discuss problems and cases in class, work in groups in class, and react properly to the arguments of their fellow students.</p>
Content	-
Teaching and Learning method	<ul style="list-style-type: none"> - Presentations by the lecturer - Discussion of cases in class - Self-study (weekly preparatory reading expected from the students) in preparation of the short tests - Short tests in class
Literature	<ul style="list-style-type: none"> - Legal codes to be found in the internet - Introduction to Business Law, Volume 1: Contract Law, by Markus Müller Chen (collective purchase order to be organized by the students themselves on the first day of class) - Cases, model contracts, excerpts from books and articles posted on Moodle
Workload	180 hours

IBLW - International Business Law - BWIh004

Contact lessons	56 lessons
Attendance requirement	Students have to attend 12 out of 14 classes Free choice of the skipped classes (without any excuse) See on moodle, where at 3-4 dates there is self-study
Proof of competence	6 Short tests (weekly, starting after an introduction phase), written in class (100%). Poor scores in individual short tests can be compensated for with better scores in the other short tests
Aids for written examination	none
Mode of repetition	If a student fails the modul, he/she may retake four short tests at once. The two-best results of the initial 6 tests will be kept in favor of the student.
Continuative, in depth modules	-
Degree programme, semester	BSc International Business Administration, 2023-2024, 4 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, TZ, Bern BSc International Business Administration, 2023-2024, 4 FS, TZ, Bern BSc International Business Administration, 2023-2024, 8 FS, TZ, Bern

IFMA - Financial Management - BWIh001

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Advanced level
Lecturer(s)	Bächli Sandro, Krebs Michel, Rascón Alberto
Module responsibility	Bächli Sandro, Rascón Alberto, Kwuida Léonard
Short description of the module	The module Financial Management (Finanzmanagement) provides an introduction to the theory, the methods, and the concerns of corporate finance. The focus of this course is how to make optimal corporate financial decisions.
Requirements	<ul style="list-style-type: none">• Basic knowledge of accounting and math.• Other required skills: Analytical skills, dealing with complexity and self-management.

IFMA - Financial Management - BWIh001

Competencies upon completion **Specialist skills:**

- Students learn the basic concepts of corporate finance and are able to apply them.
- They understand the concepts of time value of money and the trade-off between risk and return.
- Students are able to apply the various methods learned in the area of capital budgeting.
- They are able to value bonds, stocks and projects and entire firms.

Methodological skills:

- Students are able to apply and evaluate the various concepts of capital budgeting in the context of business cases.
- They are able to select the appropriate methods, make the calculations and present the findings and solutions in an adequate way.
- They are able to come to the correct conclusion and therefore should be able to make the correct investment decision.

Social skills:

- Students are able to analyze and discuss problems in working groups, taking into account, evaluating, justifying and refuting different arguments.
- They can constructively lead argumentative discussions and clearly separate them from subjective attitudes.

Self-competence:

- Students can critically reflect on themselves within the framework of various topics and possibly derive individual consequences.
- They can deal with autonomy and self-organization and can critically examine and sharpen their personal judgement.
- They analyze their ability to cope with stress and know their strengths and weaknesses.

Digital skills:

- Students can ensure access and use of a task processing tool and use it efficiently for homework and the tests.
- The skills in online learning and digital communication with teachers are strengthened.

Content

The students are able to master the fundamental concepts of capital budgeting. They know and understand the various methods used to evaluate investment projects. The following content is covered:

- The Corporation and Financial Markets
- Financial Decision Making and the Law of One Price
- The Time Value of Money
- Interest Rates
- Valuing Bonds
- Investment Decision Rules
- Fundamentals of Capital Budgeting
- Valuing Stocks
- Capital Markets and the Pricing of Risk
- Optimal Portfolio Choice and the Capital Asset Pricing Model
- Estimating the Cost of Capital

IFMA - Financial Management - BWiH001

Teaching and Learning method	<p>Input by the lecturers, practice on examples/cases. Guided and autonomous self-study via pearsons MyFinanceLab. Thus, it will be a combination between lectures and flipped classroom:</p> <ul style="list-style-type: none"> Weekly meetings with lectures, exercise briefings, coaching, assignments and discussions. The students prepare short content on their own using the provided resources.

IBAN - Business Analytics - BWIh003

ECTS	6
Study language	English
Module type	Compulsory module
Module level additive	Advanced level
Lecturer(s)	Krebs Michel, Kwuida Léonard
Module responsibility	Michel Krebs
Short description of the module	The module Business Analytics provides an introduction to statistics, data exploration & visualization and machine learning.
Requirements	Mathematics (IMAT) Basic knowledge of micro and macro economy
Competencies upon completion	The students can analyse a data set with at least one appropriate tool. They can interpret the statistical keyvalues that come with such an analysis. They can further build simple model from given data in order to make predictions about unknow values. They understand the notion of probability and can use it to interpret the uncertainty of model predictions.
Content	<ul style="list-style-type: none">• Descriptive statistics• Probabilites• Inductive statistcs• Data exploration• Data visualization• Supervised and unsupervised machine learning• Simple and multiple regression
Teaching and Learning method	Four lessons weekly with built in exercise classes. We follow an interpretation of the flipped classroom method. Every week, a new concept is introduced with a hands-on case study. Real economic data is used to illustrate the topic. Students prepare in advance to the weekly case. Short tests check the reading assignments. In class, we find the solutions together by manipulating the data with their statistical software tool. Regular chapter review test and homework throughout the semester.
Literature	Business Analysis 3th Edition, James R. Evans, Pearson The ebook is part of the MyMathLab-learning software and is available to the students for free.
Workload	6 ECTS correspond to about 180 working hours.
Contact lessons	4 contact lessons per week

IBAN - Business Analytics - BWIh003

Attendance requirement	no
Proof of competence	Written exam of 90 min at the end of the semester (CW26/27) (weighting 70%) Mean of Homework/chapter review test during the semester (weighting 25%) Weekly short test on reading assignments (weighting 5%) Rounding to half marks does not take place until the final mark.
Aids for written examination	Open book, Excel, R-Studio The BFH calculator (TI-30 ECO RS) Printed dictionary (mother tongue - examination language) <i>For details to the aids allowed during written exams see "written examination regulations".</i>
Mode of repetition	The retake of the exam is compulsory in any case. The homework can be redone again if wished. If the homework is not written a second time, the old mean will qualify for the final grade.
Continuative, in depth modules	Any quantitative and data driven modules
Degree programme, semester	BSc International Business Administration, 2023-2024, 8 FS, TZ, Bern BSc International Business Administration, 2023-2024, 4 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, TZ, Bern BSc International Business Administration, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 4 FS, TZ, Bern

YEEP - Young Entrepreneurship Exchange Project - BWIh010

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Braun Aron, Keim Jan
Module responsibility	Aron Braun (Lecturer Strategy and Entrepreneurship) & Claudia Vogel (Lecturer Business Administration and Entrepreneurship) at the BFH Business School
Short description of the module	<p>YEEP takes you on a unique entrepreneurial field trip to India!</p> <p>The module YEEP (Young Entrepreneur Exchange Project) offers an exciting opportunity for students who are interested in entrepreneurship and who want to gain first, real-world experience with the delights and challenges of working in an intercultural team in an emerging economy.</p> <p>This intensive 16-day module will take you to the Parul University in Gujarat, India. Participants from different BFH departments will join teams of entrepreneurial Indian students who are working on their startup ideas. They are being supported by the Business Incubation Center of Parul University and intend to realize their business ideas after graduation.</p> <p>This elective module gives you the unique possibility to participate in entrepreneurial business projects and to experience an emerging country with its vibrant culture and economy not like an observing tourist, but from the "inside".</p> <p>This summer school allows students to practically apply the knowledge they have acquired in preceding business courses or their general knowledge of business administration.</p> <p>A special focus lies on:</p> <ul style="list-style-type: none"> - Purpose, content, and key success factors of a business concept / business plan - Customer-centered development of a viable value proposition - Process of business concept development / business plan writing - Alignment of a business concept / business plan to the typical expectations of investors - Application of the relevant methods of strategic management and business modeling - Understanding how the social, cultural, academic and business environment and market conditions can differ in other parts of the world - Establishing relationships across cultural borders in face-to-face interactions - Developing strategies in order to function successfully in challenging and unusual environments - Reflecting on one's intercultural competency and learning how to adjust appropriately to new situations and tasks
Requirements	<p>This International Summer School is open to all BFH students via "BFH Diagonal" as well as selected BFH Business School partner university students.</p> <p>The number of participants is limited to 25 students.</p>

YEPP - Young Entrepreneurship Exchange Project - BWIh010

Competencies upon completion

Subject: Students

- apply different analytical methods and planning instruments
- gain an increased knowledge of the host country, its culture and its business environment
- develop a concrete business concept / business plan for an entrepreneurial project including the necessary preceding investigations and analyses
- analyse the opportunities and risks of a concrete venture

Method: Students

- develop an understanding for the essential elements and success factors of a business proposition
- recognize different systematic approaches and analysis methods in the field of business planning, learn to procure, evaluate, and present the information required for a business concept / business plan
- are able to present their business proposition in a convincing and target group oriented way
- learn how to assess the opportunities and risks of a concrete business model
- apply a variety of frameworks used to analyse cultures and cross-cultural interactions
- learn how to systematically document and reflect on challenges arising in multi-cultural team work

Social: Students

- practise team work by working in a multi-cultural team
- apply systematic approaches to cross-cultural communication and intercultural encounters
- identify and assess the success factors, necessary resources, team configuration, organizational structures, and appropriate timing in the management of the venture

Self: Students

- recognize their own entrepreneurial potential
- recognize their ability for intercultural teamwork
- develop their own initiative and ability to autonomously work on a project; the success of this module hinges on the active and dedicated participation of the students and their ability to deal with challenges, frustrations and uncertainty arising within a cross-cultural environment

Content

Each multi-cultural student team will develop and write up or further develop a business concept / business plan for a specific business proposition conceived by students from the host country, with a special focus on:

- selection, application, and adaptation of appropriate methods / concepts from strategic management and other basic fields of management theory
- creation of a business concept / business plan
- development of a financial plan
- documenting and presenting the business proposition in a concise and convincing way

Teaching and Learning method

- seminars, workshops and company visits
- introductory lectures on the basics of business planning for those requiring this input - team coaching
- presentation and discussion of practical solutions
- mutual reviews between teams

YEEP - Young Entrepreneurship Exchange Project - BWIh010

Literature

Additional, continuative literature:

- The Art of the Start 2.0, Guy Kawasaki, Portfolio Penguin 2015; ISBN-10: 0241187265
- Business Model Generation, Alexander Osterwalder and Yves Pigneur August 2010; ISBN-10: 0470876417

Workload

90h

Contact lessons

As per programme schedule: 11 to 26 July 2024 (at Parul University, India)

Attendance requirement

As per programme schedule: 11 to 26 July 2024 (at Parul University, India)

Proof of competence

During the International Summer School:

- Short reflective reports 30% (individual grades)
- Business concept documentation 50% (format and scope will be individually defined for each project team, group grade)
- Final pitch of business concept / business plan 20% (group grade)

Continuative, in depth modules

-

YEEP - Young Entrepreneurship Exchange Project - BWIh010

Comment

The YEEP Summer School costs EUR 300, this fee includes:

- Tuition and coaching
- Expert speakers on various themes on Indian culture
- Industry visits
- Cultural excursions in Gujarat State
- Coffee and lunches on campus and 3 Indian dinners
- Shuttle service - from recommended hotels to campus

Accommodation (not included in summer school fee):

- students and visiting lecturers will organise hotel accommodation independently based on recommendation from Parul University. The price range is EUR300 - 500 depending on your needs and paid individually.

Transport:

- Flights are organised individually and not included in summer school fee
- **Latest possible arrival: July 10**
- **Earliest possible departure: July 27**
- Shuttle service - from recommended hotels to campus is included

Visas, Insurances & Vaccinations (not included in summer school fee):

- Organised individually

Number of participants:

- Minimum 12 students
- Maximum 25 students

This International Summer School is open to all BFH students. In addition, it may also be made available to students of selected partner universities.

A minimum of 6 places are reserved for BFH Diagonal, i.e. for BFH students who are not studying at BFH Business. The other places are available for students of BFH Business, with a priority given to students from the IBA program.

In case there are still some open places after the registration deadline the summer school can also be offered to selected partner universities.

Scholarship:

The International Office can provide a limited number of **scholarships at CHF800 each** to BFH Business School students who can convincingly explain why they should receive a scholarship. **Application deadline** for the scholarship is **15 January 2024**. Directly contact claudia.vogel@bfh.ch.

All applicants for a scholarship will be informed by **January 19, 2024** as to whether they will receive a scholarship.

Application requirements

- BFH Business students to apply via IS-A
- BFH students from other departments to apply via the BFH Diagonal application form

Please inform yourself about the regulations concerning entry to India, as well as visa regulations.

EBMA - Brand Management - BWIh012

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	von Däniken Tina
Module responsibility	Tina von Däniken
Short description of the module	<p>Managing a brand successfully is a key competitive factor for any company. This is why brand management is such an important topic. The goal of successful branding is to anchor the entire company as a brand in the minds of employees, shareholders, customers and the general public and thus to establish a successful brand. A consistent image of the company should be communicated to all these stakeholder groups.</p> <p>This module offers an overview of all the tasks and contents of brand management with a main focus on the practical use of the gained knowledge and exciting insights from branding professionals.</p> <p>You will be able to apply the knowledge from the lecture by analyzing a brand of choice in depth and by making specific brand recommendations.</p>
Requirements	Attendance and successful completion of the IMAR / BMAR lectures.
Competencies upon completion	<p>Professional skills: Students will be able to</p> <ul style="list-style-type: none">- apply the knowledge from the lecture to brands- analyze a brand in depth- make concrete recommendations for a brand <p>Methodological skills: Students will</p> <ul style="list-style-type: none">- know the sources for information collection to use them for the brand inventory and draw conclusions for brand recommendations <p>Social skills: Students are able to</p> <ul style="list-style-type: none">- work successfully in a team and to present their results as a group <p>Self-competence:</p> <ul style="list-style-type: none">- Students are aware of the influence of brands on consumers and consumer behavior

EBMA - Brand Management - BWIh012

Content	<p>Introduction, definition and meaning of brands, brand functions</p> <p>Strategic Brand Management: brand equity, brand architecture, brand identity</p> <p>Core values of brands, brand positioning</p> <p>Brand stretching, brand partnerships</p> <p>Operational brand management: implementation in the marketing mix</p> <p>Situation analysis (Brand Inventory) - market development, trends, brand, competition, etc.</p> <p>Brand recommendations</p>

ECFA - Business Valuation and M&A - BWIh015

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Rascón Alberto
Module responsibility	Rascón Alberto
Short description of the module	The module is project-oriented. Each student will perform a financial valuation of a public firm from "scratch". The students will apply the concepts and theories learned in other modules for the valuation of their firm. Additionally, we will explore the principal issues in M&A and transactions.
Requirements	These modules are BFMA / IFMA Accounting Taxes

ECFA - Business Valuation and M&A - BWiH015

Competencies upon completion Subject: Students

- will apply the concepts and theories learned in their curriculum.
- will transform those concepts and theories into financial numbers, relevant for business.
- will be able to perform a valuation of a public firm.
- will be confronted with the difficulties to financial analysis.

Method: Students

- Become familiar with the DCF model.
- will foster their Excel skills.
- will analyse the impact of the "ESG" initiatives for firms.
- will be able to apply a systematic approach to business valuation

Social: Students

- will work in groups.
- will perform peer reviews.
- participate actively in classroom discussions on pertinent topics.
- work in small groups and succeed in organizing themselves in order prepare a financial recommendation.

Self: Students

- prepare for class and improve their ability to express themselves orally and in writing
- will be able to synthesise ideas and documents
- will foster their formatting skills

Content

1. Introduction to Valuation
 2. Introduction to M&A
 3. DCF Model / CAPM
 4. Ratio Analysis
 5. EGS Analysis
 6. Forecasting Techniques
-

ECFA - Business Valuation and M&A - BWIh015

Teaching and Learning method

1. Project-Based Learning
 2. Traditional Lectures
 3. Flip class room
 4. Discussion in class
 5. Presentations by the lecturer
 6. Group work when preparing the valuation
-

Literature

It will be posted on Moodle.

ISBN-13 978-1119610885

Workload

90hr.

Contact lessons

4x7 lessons = 28 (Including final presentation)

Attendance requirement

Last Session the whole morning, in principle Thursday 6th June 2024

ECFA - Business Valuation and M&A - BWIh015

Proof of competence

Each student will make a valuation of a firm.

There will be 6 task to be performed :

(Details of delivering method will be provided in class)

1x Macroeconomic Conditions (Group Work / Individual assessment by peer review) (15% of final grade)

1x Particular Macroeconomic Conditions of the Industry(ies) in which the company is performing (Group Work / Individual assessment) (10% of final grade)

1x Value Creation in the Industry in which the firm is performing (Group Work / Individual assessment) (15% of the final grade)

1x ESG Analysis of the firm (Individual Work) (20% of the final grade)

1x Financial Valuation (Individual Work) (20% of the final grade)

1x Management Summary + Presentation of the Analysis (20% of the individual grade)

The details of each document will be provided in the class.

At each class one or more students will be asked (randomly) to present hers/his work if the student is not present to do it the grade of the task will be multiplied by 70%.

Each task will be graded from 0 to 10

Rounding will only be applied to the final grade

Aids for written examination

Non-Applicable

Mode of repetition

Non-Applicable

Continuative, in depth modules

Specialisation in Banking in Finance

Specialisation in Accounting

Specialisation in International Management

Comment

For the peer review section each student will evaluate their peers from 1 to 10. The individual grade will be the product of the group work times 1 plus the ratio of the peer review grade to the mean of the peer grades of the group in question.

ECFA - Business Valuation and M&A - BWIh015

EDAC - Digital Accounting - BWIh011

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Längin Thomas, Longaron Daniel
Module responsibility	Thomas Längin, Daniel Longaron
Short description of the module	<p>This module is about:</p> <ul style="list-style-type: none">• Getting to know the process chain from procurement to payment;• understanding how such a process chain is mapped in an enterprise resource planning system (ERP);• recognizing how accounting is to be integrated into the process chain;• gaining insight into the application of ERP systems in practice by means of the standard software SAP; and• understanding which areas of accounting are significantly affected by the digitalization of the process chain.
Requirements	<p>Students should have completed the BREW or IACC module and be interested in accounting and/or controlling. Besides of that, curiosity is an important requirement.</p>
Competencies upon completion	<p>The students will:</p> <ul style="list-style-type: none">• Be familiar with process thinking;• know how processes are mapped in an ERP system,• know how the amounts published in a balance sheet and in an income statement are generated;• acquire knowledge for practice; and• expand their accounting knowledge.
Content	<p>We will first work out the foundations. The study questions are:</p> <ul style="list-style-type: none">• What sub processes does procurement to payment consist of?• What dependencies exist between the sub processes?• Which information is required?• Where in the value chain is which information generated?• How are the processes linked with accounting? <p>At the same time, we will address important accounting topics that arise along the value chain, such as:</p> <ul style="list-style-type: none">• valuation of inventories;• job costing; and• the cash-conversion cycle. <p>Secondly, the students will simulate some processes with SAP, an ERP system, that is very popular in business. Thereby, the importance of the data and information flowing into the accounting system will be emphasized. In this way, the students will gain experience with a tool that is very common in the business world.</p> <p>Thirdly, practitioners will show:</p> <ul style="list-style-type: none">• how their company uses data from an ERP system for accounting;• how the data flow is organized; and• how important data integrity is.

EDAC - Digital Accounting - BWIh011

Teaching and Learning method	Lectures, exercises, simulations and case studies.
Literature	The documents provided by the lecturers on Moodle.
Workload	180 hours (6 ECTS x 30 hours)
Contact lessons	56 lessons (4 lessons x 14 weeks/semester)
Attendance requirement	none
Proof of competence	(1) SAP Exam at the end of the SAP part, duration 60 minutes, counts 50%. (2) Written exam on Moodle at the end of the semester (calendar weeks 26/27), duration 60 minutes, counts 50%.
Aids for written examination	Open books.
Mode of repetition	(1) SAP Exam at the end of the SAP part, duration 60 minutes, counts 50%. (2) Written exam on Moodle at the end of the semester, duration 60 minutes, counts 50%.
Continuative, in depth modules	Elective module Management-Information Systems (MIS) (in German); Portfolio module Auditing (in German); and Specialization modules: <ul style="list-style-type: none"> • Höhere Rechnungslegung (SAC1) (in German); • Life-Cycle Accounting & Tax (SAC2) (in German); and • Controlling & Digitalization (SAC3) (in German).
Degree programme, semester	BSc International Business Administration, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 4 FS, TZ, Bern BSc International Business Administration, 2023-2024, 4 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, TZ, Bern BSc International Business Administration, 2023-2024, 8 FS, TZ, Bern

EENF - Entrepreneurial Finance - BWBh022

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Hopp Christian, Thies Ferdinand
Module responsibility	Christian Hopp, Ferdinand Thies
Short description of the module	The primary objective of this course is to provide students with a general understanding of the concepts and institutions involved in entrepreneurial financing. We address the challenges of fundraising, due diligence, financing strategies and the importance of the analyzing business plans for deal selection. The course will deal with common organizational issues encountered in the formation of an external-backed start-up, including matters relating to initial capitalization and early-stage equity incentives. The course will also address the financing sources and arrangements, the dynamics of negotiation between the entrepreneur and the financier, as well as corporate governance in the context of an external-backed start-up and the typical dynamics that play out in the post-financing phase.
Requirements	While it might facilitate the understanding of some issues at hand, a background in finance is not mandatory for participating in this course. All concepts will be explained thoroughly in class, to allow students with all sorts of backgrounds to acquire the skills and knowledge to evaluate business ideas, value proposed transactions and deal with the organizational issues of entrepreneurial financing. The course will be case intensive. Preparation of cases and class interaction is therefore the building block of this course to bring the various topics across.
Competencies upon completion	Students will be able to analyze business plans, understand financing strategies for new ventures, and be able to understand advantages and problems associated with different financing sources.
Content	<ol style="list-style-type: none"> 1) Introduction 2) Business Planning 3) Incubators, Business Angels 4) Crowdfunding 5) Venture Capital and Private Equity 6) ICOs 7) Case Analyses/Presentations
Teaching and Learning method	The course will comprise lectures, case studies, and case presentations
Workload	90 hours
Contact lessons	<ul style="list-style-type: none"> - 14/28 lessons - plus Coaching and group work
Attendance requirement	- 75% for lectures and coaching

EENF - Entrepreneurial Finance - BWBh022

Proof of competence

Individual assignments & group assignments:

- Individual Assignment: Pitch Deck Preparation (1/3)
- Group project & presentation (1/3)
- Teamwork on case study with written group assignment (1/3)

2/3 assignments will be graded individually (individual assignment + group project & presentation), 1/3 as a group (case study with written group assignment)

Detailed requirements will be communicated by the teacher in class.

EFRE - Frontiers of Economics - BWIh014

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Fernandes Ana, Foord Daniel, Rascón Alberto
Module responsibility	Fernandes Ana, Foord Daniel, Rascón Alberto
Short description of the module	<p>Frontiers in Economics is an intermediate economics course that deals with the most recent developments in both macroeconomics and microeconomics. The module is designed for students that have some knowledge of economics already and want to foster their business and economics skills.</p> <p>The course is a combination of applied and theoretical approaches. We will be reviewing among other topics: experimental and behavioural economics, inequality, modern fiscal and monetary policies, market structure in the market of data, value chains and external sector.</p>
Requirements	IEFI, Economics.

EFRE - Frontiers of Economics - BWIh014

Competencies upon completion

Subject: Students will...

... analyse consequences and effects of economic policies for firms, for workers and for the whole society.

... be able to evaluate the economic environment of firms.

... argue about the rationality of economic agents.

... be able to defend a location of a firm.

... conjecture about market structures.

Method: Students will...

...be able to understand the different factors that influence the choice of a determinate economic policy.

...be able to create benchmarks of policies across nations.

...be able to support theories and philosophies behind a particular choice of economic policy.

...be able to criticize economic articles and newspapers.

Social: Students...

... be able to debate their political and economic opinions among them.

... provide or request support from peers and supplement course input by providing examples from personal experience.

... will be confronted with a different culture and a different teaching style

Self: Students...

- will reflect their strengths and weaknesses as well as reasons for success or problems encountered.

- will be able to critically assess the concepts and methods of economics.

- will be able to develop a consistent argument in favour of their particular choice of policy.

Content

1. Experimental economics
2. Behavioural economics
3. Inequalities: income & wealth, ethnicity & gender
4. Inequality and poverty
5. Data and the new monopolies
6. Immigration
7. New Fiscal and Monetary Policies
8. New value chains
9. Exchange rates

Teaching and Learning method

Traditional Lectures, Cases, Discussions

EFRE - Frontiers of Economics - BWIh014

Literature

Indispensable literature:

- Several Papers and cases will be given in class.

Recommended literature:

- MANKIW Gregory N. and TAYLOR Mark P. "Economics" 5th Edition CENGAGE Learning (2019), ISBN: 978-147376854-

Workload

180 hrs.

Contact lessons

56 lessons (42 hrs.)

Attendance requirement

None requirement

Proof of competence

The proof of competence of the module will be based in:

a = Average of 3 small tests during the semester and

b = 90 minutes written essay in Moodle under Safe Exam Browser during the regular exam weeks at the end of the semester (CW26/27), on site

Final Grade = $\max(70\%a + 30\%b, 60\%a + 40\%b)$

Aids for written examination

For part a: the tests in class are closed book.

For part b: the written essay is closed book, however, students can bring:

- A English - Mother Language dictionary
- 2x A4 pages with annotations in both sides

Mode of repetition

New component "b" + The points of the small tests will be kept.

If the average of the tests is lower than 2.25 out of 6, the student will be required to take the whole course again as it is impossible to obtain a passing grade.

Before the enrollement in the repetition attempt, the student will be informed of the minimum grade required in the componen "b" to obtain a passing grade.

Continuative, in depth modules

Highly recommended for students that want to do a specialization in:

- Banking and Finance,
- Accounting and Controlling,
- Global Managment,
- HR,
- Sustainable Business,
- Digital Business Management.

EHEB - Heuristics and Biases - BWBh023

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Gurtner Nadine, Keim Jan
Module responsibility	Nadine Gurtner, Jan Keim
Short description of the module	Consumers as well as managers repeatedly rely on heuristics in their decisions and are consciously or unconsciously influenced by biases. In this module, students learn about the psychological foundations of decision-making processes and study selected heuristics and biases in their own small experiments.
Requirements	<ul style="list-style-type: none"> - ability to self-reflect - ability to work in a team - basic mathematical/statistical understanding
Competencies upon completion	<ul style="list-style-type: none"> - basic psychological knowledge in the context of decision-making and cognitive biases - increased ability of self-reflection - understanding of experimental designs - collaboration
Content	<p>In the first two course blocks, students learn about the decision-making process. Based on current decision-making theories, they understand to what extent both intuition and rationality influence our decisions. An introduction to the relevance of heuristics and biases, as well as their occurrence, then forms the transition to the second part of the course.</p> <p>In the course blocks 3-7, the students get to know a total of 10 heuristics and biases in more detail by carrying out corresponding experiments themselves (experimental design is specified by the lecturer) and then presenting the results as well as the corresponding theoretical principles to the other students.</p>
Teaching and Learning method	After a lecture and information block in the first two courses, the module follows a flipped classroom approach in which students acquire knowledge themselves through experiments and literature and then pass this on to their fellow students.
Literature	<ul style="list-style-type: none"> - required Reading: Daniel Kahneman: Thinking Fast and Slow - further reading: a selection of articles on the individual heuristics will be provided in the course
Workload	90h
Contact lessons	presence mandatory

EHEB - Heuristics and Biases - BWBh023

Proof of competence	- design, implementation, documentation and presentation of two experiments in group work (50% group grade) - online written exam at the end of the semester in CW 26/27, 45 min. (50% individual grade)
Aids for written examination	-
Mode of repetition	-
Continuative, in depth modules	decision making

EMPG - Managing People Globally - BWiH013

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Gaibrois Claudine, Sonderegger Andreas
Module responsibility	Sonderegger Andreas, Gabrois Claudine
Short description of the module	<p>In this course, students get introduced to Global People Management with a focus on current economic and technological developments and challenges. Students will understand how factors such as automation, digitalisation and AI, migration, ageing societies, general workforce diversity and workload- as well as job insecurity-related stress affect work in international contexts. By familiarizing themselves with management strategies such as team building processes, inclusive meeting behaviors, or occupational health management, students will learn how to navigate these challenges and act as responsible leaders. A short COIL (Collaborative Online International Learning, partner still to be defined) will train students' ability to work online in mixed teams. The course thus contributes to Sustainable Development Goal # 8 (Decent Work and Economic Growth).</p>
Requirements	<p>Problem-solving competences: Students</p> <ul style="list-style-type: none"> • have basic problem-solving skills • can carry out a literature analysis <p>Social skills: Students</p> <ul style="list-style-type: none"> • possess basic teamwork and communication skills <p>Self-management: Students</p> <ul style="list-style-type: none"> • have basic time management skills <p>Dealing with complexity: Students</p> <ul style="list-style-type: none"> • possess basic skills to work on interdisciplinary topics

EMPG - Managing People Globally - BWiH013

Competencies upon completion Technical competences: Students

- understand human resource management in an international context with respect to policies and practices or multinational organisations
- know how to analyse cultural dimensions of international business from different perspectives, acknowledging the relevance of others factors than culture
- understand the different forms of global work and apply this knowledge to strategic international human resource management and personal career development
- apply effective communication techniques and strategies for managing a global workforce
- are able to conduct a case study on international human resource management

Methodical competences: Students

- possess a set of skills in critical thinking and analysis through elaboration of a case study
- master various digital tools (e.g. remote collaboration, video production and editing tools etc.)

Social competences : Students

- are able to work on questions and exercises in teams and integrate various perspectives to come to a solution
- use individual and group resources in a productive way
- are able to adopt perspectives of members of other social or cultural groups, and reflect on how this could influence their behavior

Self competences: Students

- are able to critically reflect on their own behavior and attitudes
- know how to discuss constructive solutions in the group
- successfully work in a cross-cultural team

Self-management competences: Students

- are able to plan their knowledge development independently
- possess personal judgment, analysis and decision-making skills

Content

Automation, digitalisation and AI, migration, ageing societies, general workforce diversity or workload- as well as job insecurity-related stress massively affect work on a global scale. This poses various challenges to human resource management, with implications for many stakeholders in today's global businesses, including employees, managers, human resource professionals, trade unions, policy makers and academic researchers. This course introduces students to the complexity of international human resource management in today's changing world of work through theories and practical examples. By familiarizing themselves with management strategies such as team building processes, inclusive meeting behaviors, or occupational health management, students will learn how to navigate these challenges and act as responsible leaders. A short COIL (Collaborative Online International Learning, partner still to be defined) will train students' ability to work online in mixed teams. The course thus contributes to Sustainable Development Goal # 8 (Decent Work and Economic Growth).

Specific topics that will be addressed in this course include:

- Various perspectives on culture
- International migration and global work
- Intersectionality of diversity dimensions
- Diversity and inclusion in intercultural teams
- Language diversity and power
- Teams and group processes (team building, in-group out-group)
- Organisational development internationally, from vision to organisational form
- Dark side of organisational behaviour (stress, burnout and mobbing) and global occupational health management
- Socio-technical systems approach and human factors

EMPG - Managing People Globally - BWIh013

Teaching and Learning method	<ul style="list-style-type: none"> • Contact lectures: Input from lecturers and practitioners, mini cases, videos, group work, discussion • Self-study & reflexion (extensive reading and reflection on content) • Group work (case study) • Collaborative Online International Learning (COIL) - to be confirmed • Online lessons
Literature	Required readings will be communicated on Moodle for each session.
Workload	6 ECTS correspond to about 180 working hours.
Contact lessons	Majority contact lectures + self-organised COIL
Attendance requirement	Participating in the COIL is mandatory for the successful completion of the module
Proof of competence	<ul style="list-style-type: none"> • Group work (case study), which has to be accomplished within a national or international team cooperation (50% of the grade, all group members given the same grade) during the semester • Individual reflexive essay on key insights of the course (50% of the grade) - which has to be submitted at the end of the semester
Aids for written examination	N/A
Mode of repetition	An average of the two grades of the proofs of performance is calculated. If this average is below a 4, the failing grades (grades < 4) must be repeated in the next semester/semester. Grades for the individual assessments may be carried over to the next semester if a student fails this module. This is only possible if there is no change to the module description and the assessment format. Students may only carry over the assessments they passed if the module description and assessment formats remain unchanged. Only failed components are repeated where the format remains unchanged.
Continuative, in depth modules	<ul style="list-style-type: none"> • Leadership • Diversity, Equity, Inclusion and data sensitive HRM
Degree programme, semester	<p>BSc International Business Administration, 2023-2024, 4 FS, TZ, Bern BSc International Business Administration, 2023-2024, 4 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 8 FS, TZ, Bern BSc International Business Administration, 2023-2024, 6 FS, TZ, Bern</p>

EPR3 - Supervised Professional Experience - BWIh994

ECTS	3
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Hofstetter Matthias
Module responsibility	Matthias Hofstetter
Short description of the module	<p>The "Supervised Professional Experience" module serves the goal of promoting application-oriented thinking and action as well as the development of professional competencies. This is achieved by linking professional knowledge with thematically related study content.</p> <p>"Practice activity" is a professional activity that is thematically related to the course of study. This is usually carried out within the framework of a formal employment relationship, self-employed professional work or non-profit voluntary work.</p>
Requirements	<p>The practical activity is performed while the student is enrolled in the corresponding degree program. The practical activity is thematically directly related to the contents of the corresponding study program. The practical activity has not already been credited to the study program in another context or qualified twice with "unfulfilled".</p> <p>A third party (employer, project partner, customer, etc.) confirms the performance of the practical activity. The practical activity is accompanied by (auto-)didactic transfer achievements.</p>
Competencies upon completion	In the transfer performance, the knowledge acquired in the context of the practical activity is linked to thematically related study content.
Content	individually
Teaching and Learning method	1 - 3 coachings
Literature	individually
Workload	<p>The practical activity and the transfer performance together form the basis of the credit for practical activity. The transfer performance can be provided, for example, by a learning report, a presentation, a workshop, a case study, a publication, etc.</p> <p>The extent of the transfer performance is measured by the ECTS credits. The transfer performance effort is about 18 hours for 3 ECTS credits or 36 hours for 6 ECTS credits.</p>
Contact lessons	1 - 3 coaching sessions with supervisor.
Attendance requirement	none

EPR3 - Supervised Professional Experience - BWIh994

Proof of competence	The extent of the transfer work is measured by the ECTS credits that are credited for the practical activity. These are approximately 18 hours for 3 ECTS credits or 36 hours for 6 ECTS credits.
Aids for written examination	no written exam
Mode of repetition	<p>Transfer performance that is rejected for rework must be reworked and resubmitted within 30 days of receipt of the notice.</p> <p>If the transfer performance for a practice activity is assessed as "not fulfilled", the credit for the work performance can be applied for once again. In case of repetition, a new thematic focus for the transfer performance must be agreed.</p>
Continuative, in depth modules	none
Degree programme, semester	, 2023-2024, 2 FS, ,

Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Hofstetter Matthias
Module responsibility	Matthias Hofstetter
Short description of the module	<p>The "Supervised Professional Experience" module serves the goal of promoting application-oriented thinking and action as well as the development of professional competencies. This is achieved by linking professional knowledge with thematically related study content.</p> <p>"Practice activity" is a professional activity that is thematically related to the course of study. This is usually carried out within the framework of a formal employment relationship, self-employed professional work or non-profit voluntary work.</p>
Requirements	<p>The practical activity is performed while the student is enrolled in the corresponding degree program. The practical activity is thematically directly related to the contents of the corresponding study program. The practical activity has not already been credited to the study program in another context or qualified twice with "unfulfilled".</p> <p>A third party (employer, project partner, customer, etc.) confirms the performance of the practical activity. The practical activity is accompanied by (auto-)didactic transfer achievements.</p>
Competencies upon completion	In the transfer performance, the knowledge acquired in the context of the practical activity is linked to thematically related study content.
Content	individually
Teaching and Learning method	1 - 3 coachings
Literature	individually
Workload	<p>The practical activity and the transfer performance together form the basis of the credit for practical activity. The transfer performance can be provided, for example, by a learning report, a presentation, a workshop, a case study, a publication, etc.</p> <p>The extent of the transfer performance is measured by the ECTS credits. The transfer performance effort is about 18 hours for 3 ECTS credits or 36 hours for 6 ECTS credits.</p>
Contact lessons	1 - 3 coaching sessions with supervisor.
Attendance requirement	none
Proof of competence	The extent of the transfer work is measured by the ECTS credits that are credited for the practical activity. These are approximately 18 hours for 3 ECTS credits or 36 hours for 6 ECTS credits.

EPR6 - Supervised Professional Experience - BWIh999

Aids for written examination no written exam

Mode of repetition

Transfer performance that is rejected for rework must be reworked and resubmitted within 30 days of receipt of the notice.

If the transfer performance for a practice activity is assessed as "not fulfilled", the credit for the work performance can be applied for once again.
In case of repetition, a new thematic focus for the transfer performance must be agreed.

Continuative, in depth modules none

ESIN - Social Innovation - BWBh025

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Blum Nicola Ursina, Fischer Manuel
Module responsibility	Nicola Blum

Short description of the module Social innovations address complex societal problems through innovative solutions. This module will provide you with the tools to design socially innovative solutions. Specifically, you will learn concepts and methods to plan, measure, analyse and improve the impact of social innovations. You do this based on an existing social innovation project. In groups, you analyse this project and develop concrete solutions to further increase its impact. The lectures and the proof of competence (report & presentations) of the module will be in English. Coaching and exchange opportunities will happen in groups and are offered in English or German as required. For communication with the practice partners, one German-speaking person per group would be helpful.

- Requirements**
- Knowledge of the most important basic terms, concepts and models of sustainable development.
 - An understanding of the complex interactions between the business sector, politics, civil society, the natural environment.
 - An understanding of the great environmental, social and economic challenges.
 - Genuine interest in active exchange and cooperation with social initiatives
 - Ability to collaborate in groups in a self-organized way.

- Competencies upon completion**
- An understanding of the concept, relevance and potential of social innovation for sustainable development.
 - An understanding of factors that promote the emergence and success of social innovations, especially in scaling up through partnerships between government, businesses and civil society.
 - Ability to analyse, plan and measure the impact of social innovations.
 - Optimize the impact of social innovations and communicate effectively to stakeholders.
 - Basic entrepreneurial skills to start a social business.

Content

Input lectures: Input on theoretical and practical knowledge on social innovation and impact planning. Input on impact measurement. Development of indicators and generation of data to measure the impact of a social innovation.

Self-study lectures: You will work in groups independently on a project with a practice partner. You apply the concepts that you've learnt in the input lectures. You will be regularly coached by one of the lecturers.

Presentations and reflection: You will regularly present the progress of your group work, and you will reflect on your learning process. At the closing event you will present the results of your group work to practice partners.

ESIN - Social Innovation - BWBh025

Teaching and Learning method	<p>This module includes a variety of teaching and learning methods. Overall, it adopts a service learning approach.</p> <p>Input lectures: lectures, guest lectures and smaller preparatory tasks, exercises and group discussions (flipped classroom approach).</p> <p>Self-study lectures: You will work independently in small groups, conduct interviews and collect data (e.g. through field visits or short surveys). This will be accompanied by regular coaching sessions.</p> <p>Presentations and reflection: Presentations will be used for feedback by peers and by the lecturers. In parallel you will individually reflect throughout the seminar. The closing event includes the final presentations of your analysis and proposed solutions. Group presentations are part of the proof of competence.</p>
Literature	<p>Phineo Impact Navigator (available in German, English, Italian, available as free download).</p> <p>Chapter to Social Innovation (approx. 10 pages) in the Sustainable Business Reader (available on Moodle)</p> <p>Supplementary literature is compiled specifically for the lessons and made available on Moodle.</p>
Workload	180 hours
Contact lessons	Lectures, coaching sessions, presentations and closing event in CW23
Attendance requirement	<p>Participation in the first lecture (CW8), the mid-semester presentation (CW12), the final event (CW23), as well as in the group work is compulsory.</p> <p>Participation in the other lectures and especially the coaching seminars is highly recommended.</p>
Proof of competence	<p>The proof of competence consists of three parts:</p> <ol style="list-style-type: none">1. Mid-semester presentation (CW 12) in groups on the intermediary results from the group work incl. discussion and peer-feedback. Individual grading. Weighting: 30%2. Final, public presentation (CW23) in groups including Q&A session on the results from group work. Individual grading. Weighting: 30%3. 4-page report including method, results and reflection about cooperation and individual learning process. Deadline for digital submission in CW23. Individual grading. Weighting 40%
Mode of repetition	The module can be repeated the next time it is carried out.
Continuative, in depth modules	Advanced modules: Specialization "Sustainable Business". Prerequisites: The module builds in parts on the module Sustainable Business (BSBU) but can be attended independently from other modules.
Comment	Participants limited to a maximum of 25 students

SBF3 - Portfolio- & Risk Management - BWBh243

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Gimeno Raúl Diego, Rascón Alberto
Module responsibility	Gimeno Raúl Diego, Alberto Rascon

Short description of the module	<p>The course comprises two parts: Portfolio Management and risk Management</p> <p>We'll cover the most important methods/concepts as applied in practice (standards of "best practice") with a focus on financial risks (market risks, credit risk, operational risk, ALM). Holistic treatment of practical issues along the risk management process: risk identification, risk quantification, risk reporting, risk management, from strategic aspects (strategic risk management, ERM) all the way down to tactical and technical dimensions (risk quantification on a stand-alone basis, portfolio risk).</p> <p>You'll receive a sound introduction in portfolio management with emphasis given on the use of Excel as a calculation tool. Students learn how to use Excel in order to perform performance calculations and especially absolute and relative optimisations.</p>
--	--

Requirements	It is recommended to attend the previous courses in finance like IFMA / BFMA
---------------------	--

Competencies upon completion	<p>Subject: Students...</p> <ul style="list-style-type: none"> • know the aims and basics of risk management • can calculate the market risk • can calculate the credit risk • are familiar with the most important methods and concepts for quantifying, controlling and managing risk • understand and apply the basic models of portfolio management. • understand the different performance measures and their respective drawbacks • perform portfolio optimizations • perform a performance attribution analysis <p>Social: Students</p> <ul style="list-style-type: none"> - analyze and discuss problems, in study groups, by considering, evaluating, substantiating and refuting a variety of different arguments - argue in a constructive and factual way - analyze the source of potential conflicts, perceive conflicts and solve them in a constructive way <p>Self: Students</p> <ul style="list-style-type: none"> - learn and work independently, recognize gaps in your knowledge and fill these gaps independently - critically reflect work and thought processes and develop possible courses of action - reflect and challenge personal and external judgments and develop these with regard to the assignment - draw conclusions from your experiences for your further studies and professional life and document these in your individual portfolio - evidence stamina when confronted with problems during their studies
-------------------------------------	--

SDB2 - Digital Business Transformation - BWBh262

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Hehn Jennifer, Simonet Joëlle
Module responsibility	Jennifer Hehn
Short description of the module	<p>The right digital technologies unlock potential for growth, operational efficiencies, and profitability. Companies need to develop a first-hand understanding of the technology available to solve business problems and achieve business goals. The module "Digital Business Transformation" introduces a framework that helps to fundamentally challenge core business functions, processes, and their purpose to remain relevant and competitive in the digital age.</p>
Requirements	-
Competencies upon completion	<p>Students will...</p> <ul style="list-style-type: none">• know the fundamentals of digital business transformation• learn strategic frameworks and best practices to identify key areas for digital business transformation and act upon them• explore opportunities to bridge business needs with technology in order to create unique customer value• engage with concrete cases to reflect on digital business transformation from a human and technological point of view

SDB2 - Digital Business Transformation - BWBh262

Content

(Digital) Customer Experience

- Understanding changing customer behavior
- Nurturing a culture of experimentation with customer needs at the center
- Acquiring, retaining, and managing customers

Digital Business Strategy

- Creating a sustainable and adaptable digital strategy to meet customer demand and business vision

(Digital) Processes & Collaboration

- Digitizing operations to better manage administrative processes in terms of cost savings, efficiency, quality
- Helping employees develop new and digital capabilities
- New ways of working

IT business infrastructure

- Creating standardized and integrated IT systems, business processes and data collections that support a company's core activities
- Establishing a data culture and an organization that can make data-informed decisions at all levels
- Creating digital solution building blocks to implement new digital offerings in the short term

(Digital) Leadership & Culture

- Designing the right organizational structure and incentive systems
- Building a learning organization that continues to improve its capabilities
- Leading and managing the digital transformation process

(Digital) Products & Services

- Identifying business scope
- Exploring new (digital) business models
- Execution and Sustenance of Digital Solutions

Teaching and Learning method

Blended mix of

- On Campus sessions with theory input and interactive elements
- Case Study work in teams with coaching sessions
- Asynchronous Online learning as guided Self-study

Literature

Literature will be provided on moodle according to the different lecture blocks

Workload

180 h

SDG3 - Innovation & Organisation Verwaltung - BWBh283

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Gees Thomas, Sahi Amir
Modulverantwortung	Gees Thomas
Kurzbeschreibung des Moduls	<p>Damit Transformation des öffentlichen Sektors im Zuge der Digitalisierung gelingt, ist nur bedingt eine Frage der Technologie. Im Modul SDG3 werden primär die organisationalen Voraussetzungen auf der Basis der Literatur zur untersucht, welche die Umsetzung digitaler Transformation im öffentlichen Sektor begünstigen oder behindern. Im Modul Innovation & Organisation erkennen und analysieren die Studierenden zuerst theoretisch, anschliessend auch praktisch (mit Partnerorganisationen aus dem öffentlichen Sektor) Chancen und Risiken von digitalisierungsinduzierter Veränderung.</p> <p>Im Modul werden die Studierenden im Feld das vermittelte Wissen und die Konzepte in die Praxis transferieren und anhand eines Live Cases eigenständige Lösungsansätze entwickeln. Eine Exkursion zusammen mit der FH Ost nach München gibt Impulse und fördert den internationalen Austausch und Wissenstransfer (Schwerpunktthema der Exkursion: Transformation des Energiesystems).</p>
Eingangskompetenz	Die Studierenden verfügen über Basiskenntnisse aus den Pflichtmodulen BPGS und Academic Skills

SDG3 - Innovation & Organisation Verwaltung - BWBh283

Kompetenz

Fachkompetenzen

Die Studierenden

- kennen Konzepte der Organisation und Innovation des öffentlichen Sektors.
- können den Nutzen organisationaler Voraussetzungen im öffentlichen Sektor erkennen.
- verfügen über Basiskenntnisse auf den Gebieten Innovation und Organisation im besonderen Kontext des öffentlichen Sektors.
- sind interessiert, theoretisches Wissen in beobachtender oder analytischer Forschung mit realen Praxispartnern anzuwenden.

Problem Solving

Die Studierenden

- beschaffen sich selbständig Lösungsansätze, um Hindernisse von Innovationsprojekten zu überwinden.
- bekommen Einblick, wie Problemstellungen und Lösungsansätze methodisch aufbereitet werden.

Kollaboration

Die Studierenden

- lernen in kleinen Gruppen den Austausch.
- arbeiten mit den jeweiligen Spezialisten zusammen und entwickeln gemeinsam eine Fragestellung.

Selbstmanagement

Die Studierenden

- bringen sich selber in den Lernprozess ein, indem sie die vorgegebene Thematik selbständig unter Anleitung vertiefen.
- entwickeln Neugier und lernen, sich in eine offene Thematik zu vertiefen aus eigenem Antrieb.

Umgang mit Komplexität

Die Studierenden

- lernen organisatorische Einheiten des öffentlichen Sektors als komplexe Systeme in der digitalen Transformation zu begreifen.
- werden mit ungelösten und offenen Herausforderungen konfrontiert.
- sehen in den einzelnen Innovationsprojekten Grundlegende Herausforderungen der administrativen Praxis.
- werden angeleitet, die Komplexität im Hinblick auf Lösungsvorschläge für die Praxispartner zu reduzieren.

Inhalt

Digitalisierung im öffentlichen Sektor: Zielbild einer resilienten Verwaltung

- Die Tallin Prinzipien: normative Konzepte und reale Umsetzungsmöglichkeiten
- Auswirkungen auf die Beschäftigten: Fehlerkultur und Experimentieren
- Verändertes Führungsverständnis im digitalen Zeitalter: Besonderheiten der Verwaltung
- Führung und Zusammenarbeit in der digitalisierten Verwaltung
- Internationale Perspektive: Digital Service Teams
- Erfolgsfaktoren und Stolpersteine in den einzelnen Innovationsphasen
- Umsetzungsmöglichkeiten: Holocracy, Datahackdays, Workhacks, Open Government

Parallel: Analyse von einzelnen Fällen in städtischen Verwaltungen (abhängig von den Partnerorganisationen)

SDG3 - Innovation & Organisation Verwaltung - BWBh283

Lehr- und Lernmethode	Vorlesungsinputs Selbst erarbeitete Kurzvorträge basierend auf Literaturrecherche Gruppenorientiertes Lernen Fallorientiertes Lernen und Transferieren anhand realer Herausforderungen bei Partnerorganisationen Exkursion (Präsenzpflicht)
Fachliteratur	Wird bekannt gegeben
Workload	180 h
Kontaktstudium	Exkursion 10. - 12. April 2024 (2.5 Tage) zusätzlich 9x4 Kontaktlektionen
Präsenzpflicht	10. - 12. April 2024 (2.5 Tage)
Kompetenznachweis	Kurzreferat einzeln (mündlich) während des Semesters / Präsentation der Organisationsanalyse (Gruppenreferat mündlich) und Kurzreport der Interviews (Gruppen schriftlich), beide am Ende des Semesters. Bewertung: Kurzreferat mündlich (Einzelbewertung 1/3) Präsentation Organisationsanalyse (Gruppenbewertung 1/3) Kurzreport Interviews (Gruppenbewertung 1/3)
Wiederholungsmodalitäten	Im darauffolgenden Jahr
Weiterführende, vertiefende Module	SDG1 und SDG2

SGM1 - Going Global - BWBh341

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Bürki Jacqueline, Serrano Omar Ramon
Module responsibility	Jacqueline Bürki

Short description of the module Students will work on a live case of a company wanting to expand or evaluate its operations internationally, thus applying their knowledge and skills of international expansion strategy, international operations and working in multicultural teams.

It commences with developing an understanding of the international enterprise and its opportunities and challenges in a globalized world, covering the following three areas:

- foundations of international business such as globalization, global economics and the internationalization paths of an enterprise.
- Headquarter and Subsidiary Level strategy of an enterprise expanding into foreign markets.
- And operations of a company with an international/global presence and its management of the cross-border business functions (i.e. international HR, Marketing, etc.)

Requirements foundation in business, international business, strategy and academic skills

Competencies upon completion **Subject: Students**

- understand the phenomena of internationalization of firms; the reasons and drivers of companies to go international/global
- understand the specifics of the international operations of an enterprise
- understand and are able to apply the strategic process of going international/global
- understand and are able to develop a strategy for international expansion: headquarter- and subsidiary level strategy
- are able to develop solutions for challenges the company is facing within its international operations

Method: Students

- understand the process of developing international expansion strategies as an integral part for a corporate strategic planning process
- know, understand and are able to implement the international expansion specific steps of the strategic planning process (strategic analysis, choice of target markets, headquarter level and subsidiary level strategy)
- learn how to deal with opportunities and challenges in a multicultural project team
- learn how to manage working in a virtual team
- learn to use their workshop time available efficiently

Social: Students

- learn how to prepare for and ask relevant questions, engaging with the live case partner, in order to benefit from their practical experience and enlarge their own knowledge of international business
- learn to work in multicultural mixed teams of students virtually and during the study trips
- learn to plan and organize themselves during the study trips, where a balance between study, sightseeing and social life will need to be achieved

SGM1 - Going Global - BWBh341

Content

Besides relevant concepts and frameworks of global economy, international strategy and operations this module builds on real cases of companies entering and operating in foreign markets. Thus, students work on a live case of a company aiming to go global or to improve its global operations. The live case company and the challenge it is facing in their international strategy and/or operations will be presented to the students during the module. Students work in mixed teams from the participating partner university(s) and implement their knowledge acquired in preceding modules to complete both assignments arising out of the live case. Student teams will meet each other during a kickoff event and work virtually as teams during the semester to present final results of the second assignment during a study trip to HM Munich. BFH students, please note that the study trip is from 10 - 12 June and is mandatory. Students will have to arrive in Munich on Sunday prior to the official kick-off on Monday morning.

The School is offering scholarships for the study trip. For more information or to apply (with a motivation letter), please contact: international.business@bfh.ch (application deadline is 01 March 2024).

Teaching and Learning method

Problem-based learning with input, coaching and self-directed work. Students will be assigned tasks and readings which will support them in completing the live case assignments. This is an applied course, students will be expected to apply their prior acquired knowledge and experience in analysing and providing solutions to the live case.

All coaching sessions are mandatory, students are expected to be prepared for these coaching sessions, that is the coach is only able to support in so far as the team being prepared with questions they require support with.

Literature

Input from the Live Case partner, slides, articles and selected chapters from various sources provided by lecturers via Moodle.

Workload

6 ECTS, 180 hours

Contact lessons

Contact lessons will be a mixture of onsite hybrid, online input sessions as well as online coaching. Please follow the course schedule which will be published on Moodle at the beginning of the semester. Take note of the relevant dates and deadlines, as well as the mandatory attendance for the following sessions:

- CW12 (22 March) ONLINE Course kick off, team building and Live Case introduction
- CW15 (12 April) ONLINE Supervised Live Case jigsaw
- CW 16 (19 April) HM Munich study trip to Bern
- CW17 (26 April) ONLINE Mandatory coaching all teams (each team 30 mins slot only)
- CW18 (03 May) Q&A session with Live Case Partner
- CW20 (17 May) ONLINE Mandatory coaching all teams (each team 30 mins slot only)
- CW21 (24 May) ONLINE Kick off assignment two
- CW22 (31 May) ONLINE Presentation of interim results assignment two (part1)
- CW23 (07 June) ONLINE Presentation of interim results assignment two (part2)
- CW24 (10 to 12 June) Study trip BFH Business School to HM Munich

Attendance requirement

Mandatory attendance for the following sessions:

- CW12 (22 March) ONLINE Course kick off, team building and Live Case introduction
- CW15 (12 April) ONLINE Supervised Live Case jigsaw
- CW 16 (19 April) HM Munich study trip to Bern
- CW17 (26 April) ONLINE Mandatory coaching all teams (each team 30 mins slot only)
- CW18 (03 May) Q&A session with Live Case Partner
- CW20 (17 May) ONLINE Mandatory coaching all teams (each team 30 mins slot only)
- CW21 (24 May) ONLINE Kick off assignment two
- CW22 (31 May) ONLINE Presentation of interim results assignment two (part1)
- CW23 (07 June) ONLINE Presentation of interim results assignment two (part2)
- CW24 (10 to 12 June) Study trip BFH Business School to HM Munich

SGM1 - Going Global - BWBh341

Proof of competence

There are two assessment components in this course.

Assignment 1 is a written assignment (group work, all members of the group receive the same grade). The report length is max. 15 pages (excluding title pages, bibliography and the appendix). All relevant and important conclusions are in the 15 pages, the appendix includes supporting information.

Assignment 2 is a final presentation (group work, all members of the group receive the same grade). The presentation is max. 20minutes with a 10min Q&A session and will take place during the mandatory study trip 10 to 12 June in Munich. The audience will be lecturers, representatives of the Live Case company as well as your classmates. Students who do not take part in the study trip in Munich will not be able to successfully complete the module.

Aids for written examination

none

Mode of repetition

Student teams who do not achieve the minimum pass grade for each assignment will have the opportunity to resubmit within a 10-day period, based on directives from the lecturing team. The max. grade for resubmission is a pass grade 4.

SGM4 - Geopolitics and the Green Economy Transition - BWBh344

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Al-Azm Ivan, Bürki Jacqueline, Serrano Omar Ramon, Stalder Pia
Module responsibility	Pia Stalder & Omar Serrano

Short description of the module Developing competences in international, intercultural, and interdisciplinary management in the current business environment requires learning and adopting a geopolitical stance, i.e., understanding "the interaction between power relations and geography" or that between politics, geography, and geographical entities, including the concepts of "place, space, scale, region, territory and network" (Flint, 2022), while fully taking into account the responsibility managers and leaders have at the global level to respect and protect people and the planet. Understanding geopolitics is also essential to anticipate harm to immaterial and material "resources" impacted by business activities at the global level. This module seeks to develop such competences by bringing together insights from international management and international relations. Students will work - in groups - on a real case anchored in the field of the electric mobility and the challenges arising from the growing demand for lithium and other minerals.

Requirements Foundation in business, international business, intercultural communication and management, natural resource management, interdisciplinarity, strategy, and academic skills.

Competencies upon completion Participants will experience, reflect, and thus learn how to

- identify and assess critical challenges/risks arising from geopolitical competition and international resource dependence (e.g., how do such competition and dependence impact the procurement and management of material and immaterial resources, relationships, negotiation, strategy elaboration, and decision taking),
- propose responsible and sustainable solutions to reduce such dependences and geopolitical challenges, while critically analyzing the bigger picture (geographic, historical, environmental, social, cultural, political, and economic factors) and anticipating risks of harm at all levels (local, regional, national, global).

They will further develop their skills in an international, multilayered (geographic, political, economic and social impact) analysis as well as in international, -cultural, and -disciplinary communication and collaboration by engaging with colleagues in Kenya.

Content This module addresses current geopolitical challenges by looking at the impact of the green economy transition in business, with a specific focus on the African continent, a major arena for renewed economic power competition. The module is taught in collaboration with lecturers from different departments of BFH (School of Business; School of Agriculture, Forest, and Food Sciences; Global Engagement Office) and from Kenyatta University, Nairobi (UNESCO Chair on Higher Education Development for a Green Economy and Sustainability, HEDGES).

The module consists of:

- lecture series by experts from different institutions and from practitioners working for private and public sectors in Europe and in Africa,
- assignment and analysis - in groups - of a real case of green economy transition in the field of electric mobility where the geopolitical stance and the responsible global management competences are at stake for success.

SGM4 - Geopolitics and the Green Economy Transition - BWBh344

SHR3 - Neue Organisationsformen & HRM - BWBh203

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Habegger Anja, Lanfranconi Lucia, Zinn Isabelle
Modulverantwortung	Lanfranconi Lucia und Zinn Isabelle
Kurzbeschreibung des Moduls	<p>Die Formen und Strukturen von Arbeitsorganisationen haben sich in den letzten Jahrzehnten tiefgreifend verändert. Mit ihnen wandeln sich auch die Aufgaben und die Rolle des Human Resources Management (HRM). Im Modul SHR3 werden neue Formen von Arbeitsgestaltung und flexiblen Arbeitsverhältnissen sowie neue Organisationsformen vorgestellt. Wir nehmen dabei Thematiken auf wie z.B. von Bürokratie zur selbstorganisierten Organisation oder Hola- und Soziokratie. Die Rollen, welche HRM in solchen neuen Organisationsformen einnehmen soll und kann, werden kritisch betrachtet: Wie wirken sich einerseits neue Organisationsformen und andererseits die neuen Arbeitsformen auf die Arbeitskräfte aus, wie funktionieren Flexibilisierung der Arbeit und der Organisation? Kurz: Wie transformiert sich HRM in Zeiten der Digitalisierung.</p> <p>Praxisbezogen werden Herausforderungen der neuen Arbeitsorganisationen thematisiert. Durch Exkursionen in Unternehmen und Gastreferate werden die neuen Arbeitswelten und ihre Chancen und Risiken praktisch erfahrbar. Daneben werden auch theoretische Inputs zu gesellschaftlichen und sozio-technologischen Veränderungen der Arbeitswelt vorgestellt und diskutiert.</p> <p>Darüber hinaus können Sie in diesem Modul im Rahmen des Berufsbildungskurses die beiden Teile "Ausbildungsplanung/Leistungsziele/Bildungsbericht - Beurteilen" und "Lehren und Lernen" absolvieren.</p>
Eingangskompetenz	BHRM
Kompetenz	<p>Fachkompetenz: Die Studierenden</p> <ul style="list-style-type: none"> - Haben einen Überblick über unterschiedliche Organisationsformen und Trends in der Organisationsgestaltung. - Begreifen Herausforderungen neuer Organisationsformen für das HRM. - Können Risiken und Chancen neuer HRM-Rollen einordnen. - Können zukünftige Entwicklungen fundiert thematisieren und Thesen zu organisationalen Herausforderungen formulieren. <p>Methodenkompetenzen: Die Studierenden</p> <ul style="list-style-type: none"> - können Thesen entwickeln, ausformulieren und in der Diskussion vertreten. - können die Relevanz von aktuellen Entwicklungen einschätzen. - können eine fokussierte Literaturrecherche zu von ihnen formulierten Thesen durchführen. <p>Sozialkompetenz: Die Studierenden</p> <ul style="list-style-type: none"> - gehen durch (Nach)fragen den Dingen auf den Grund, - bearbeiten in der Diskussion Fragestellungen lösungsorientiert, dabei integrieren sie verschiedene Perspektiven, berücksichtigen eigene und fremde Ansichten, nutzen persönliche Ressourcen und Ressourcen der Gruppe. <p>Selbstkompetenz: Die Studierenden</p> <ul style="list-style-type: none"> - Reflektieren auf verschiedenen Ebenen, - entwickeln das persönliche Analyse-, Urteils- und Entscheidungsvermögen, - decken eigenständig und selbstverantwortlich Wissensdefizite auf und gleichen diese durch Selbststudium aus.

SHR3 - Neue Organisationsformen & HRM - BWBh203

Inhalt

Die Studierenden lernen praktische, räumliche und sinnliche Grundannahmen von 'neuen Arbeitswelten' kennen. Geplant sind Exkursionen zu Praxispartnern, bei denen die Studierenden neue Arbeitswelten erfahren können. Sie überlegen sich anhand ihrer Wahrnehmung mögliche Problemstellungen und Lösungsansätze, zu denen HR beitragen könnte.

An weiteren Terminen werden aus Forschung und Praxis relevante Themen aus dem Bereich New Work präsentieren und mit den Studierenden diskutieren. Neue Organisations- und Arbeitsformen, aber auch die Veränderungen der HRM Organisation selbst werden thematisiert. Wir laden jeweils fundierte Praktiker*innen zu einem Gastvortrag ein.

Die Studierenden reflektieren ihren Lernfortschritt in einem Lernjournal.

Die Studierenden erarbeiten mit Coaching einer Dozierenden ein kritisches Thesenpapier zu einem selbst gewählten Thema aus dem Bereich New Work, das in einer mündlichen Prüfung verteidigt und verargumentiert wird.

Die Studierenden können im Rahmen des Moduls zwei Teile des Berufsbildungskurs ("Ausbildungsplanung/Leistungsziele/Bildungsbericht - Beurteilen" und "Lehren und Lernen") absolvieren.

Lehr- und Lernmethode

Das Modul ist ein Mix aus verschiedenen Lehr- und Lernformen. Reflexionsfähigkeit und kritische Wahrnehmung, aber auch die Erarbeitung von Lösungsvorschlägen werden mit Exkursionen, Vorträgen aus Forschung und Praxis, Diskussionsrunden etc. geschult und angereichert mit theoretischen Inputs.

Fachliteratur

Fachliteratur wird für die einzelnen Termine per Moodle zur Verfügung gestellt.

SHR4 - Die Rolle des HRM im Wandel hin zu nachhaltigen Organisationen - BWBh205

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Lanfranconi Lucia, Zinn Isabelle
Modulverantwortung	Lanfranconi Lucia, Zinn Isabelle
Kurzbeschreibung des Moduls	<p>Die Wichtigkeit von Nachhaltigkeit und insbesondere einer nachhaltigen Wirtschaft hat in den letzten Jahren zugenommen. In diesem Modul nutzen wir Konzepte der Organisationsanalyse und -entwicklung, um zu verstehen, wo Organisationen im Wandel hin zu mehr Nachhaltigkeit stehen.</p> <p>Im Verlauf des Moduls werden wir die verschiedenen Dimensionen der Nachhaltigkeit vertiefen, die wirtschaftliche, soziale und ökologische Aspekte berücksichtigen. Die gegenseitige Abhängigkeit dieser Aspekte wird dabei zentral sein.</p>
Eingangskompetenz	<p>BHRM, IHRM</p> <ul style="list-style-type: none"> • Grundlegende Personalprozesse, arbeitspsychologische und arbeitsrechtliche Grundlagen sind bekannt (Modul BHRM oder IHRM im Grundstudium), bzw. entsprechende Grundlagen des HRM (zentrale Personalprozesse, Basis A&O Psychologie, Arbeitsrecht). • Praktische Einblicke in aktuelle Herausforderungen im HR und im Führungsalltag wurden bereits gewonnen (bspw. WPM "Herausforderungen des HRM in der Praxis" / "Managing People Globally" und "Leadership") • Evtl. wurden auch entsprechende eigene berufliche Erfahrungen (aktiv, passiv) gemacht.

SHR4 - Die Rolle des HRM im Wandel hin zu nachhaltigen Organisationen - BWBh205

Kompetenz

Fachkompetenzen: Die Studierenden

- verfügen über Grundkenntnisse zum Thema sozialer, wirtschaftlicher und ökologischer Nachhaltigkeit.
- kennen die Rolle der Organisationen/Unternehmen im Wandel hin zu mehr Nachhaltigkeit.
- reflektieren die Rolle vom HRM im Wandel hin zu mehr Nachhaltigkeit («Green HRM»).
- lernen Organisationsentwicklungsmodelle anwenden auf das Feld der Nachhaltigkeit.
- kennen und entwickeln Tools & Lösungsansätze.

Methodenkompetenzen: Die Studierenden

- können in den HRM Prozessen Nachhaltigkeitsfragestellungen und Lösungsansätze erkennen, entwickeln und anwenden.
- erarbeiten Wissen, Kompetenzen & Methoden in einem zukunftsorientierten Themenfeld.
- erstellen einen Podcast oder Videoclip zur Wichtigkeit von Nachhaltigkeit in Organisationen.

Sozialkompetenzen: Die Studierenden

- verstehen Nachhaltigkeit als Gewinn und Notwendigkeit und können entsprechende Argumente vorbringen.
- reflektieren eigene Resultate und die ihrer Mitstudierenden kritisch.

Selbstkompetenzen: Die Studierenden

- sind fähig zur Selbstreflexion, insbesondere in Bezug auf Nachhaltigkeit.
- können Verantwortung für den eigenen und den gemeinsamen Lernprozess übernehmen.

Inhalt

Die Wichtigkeit von Nachhaltigkeit und insbesondere einer nachhaltigen Wirtschaft hat in den letzten Jahren zugenommen. Dem HRM kommt dabei eine Verantwortung beim Wandel hin zu mehr Nachhaltigkeit zu: sowohl innerhalb der Organisationen (zwischen Führungskräften und Mitarbeitenden), wie auch ausserhalb der Organisationen und ihrer Wechselwirkung auf die Gesellschaft. Die 17 "Sustainable Development Goals" der UNO-Agenda 2030 spielen hier eine bedeutende Rolle, da immer mehr Unternehmen diesen Rahmen nutzen, um ihre Nachhaltigkeitsziele zu definieren und die Nachhaltigkeit ihrer Aktivitäten nachzuweisen.

In diesem Modul nutzen wir Konzepte der Organisationsanalyse und -entwicklung, um zu verstehen, wo Organisationen im Wandel hin zu mehr Nachhaltigkeit stehen. Zentrale Fragen, denen wir dabei nachgehen, sind: Wie nähern sich Organisationen den Nachhaltigkeitszielen und welche Rolle spielt dabei das HRM? Was ist nachhaltiges Personalmanagement, respektive «Green HRM»? Wie können Unternehmen gerade auch die soziale Dimension der Nachhaltigkeit stärken? Und: Wie geschieht organisatorischer Wandel hin zu mehr Nachhaltigkeit, resp. wie lässt sich dieser gezielt steuern?

Im Verlauf des Moduls werden wir die verschiedenen Dimensionen der Nachhaltigkeit vertiefen, die wirtschaftliche, soziale und ökologische Aspekte berücksichtigen. Die gegenseitige Abhängigkeit dieser Aspekte wird dabei zentral sein.

Thematisch werden verschiedene Schwerpunkte gesetzt: sozial-ökologischer Wandel; Arbeitskräftemangel; Gesundheitsmanagement und mentale Gesundheit; Work-live-balance; Diversity, Equity und Inclusion; Reduktion von Armut; soziale Ungleichheiten (Verteilungs- & Chancengerechtigkeit); Kreislaufwirtschaft.

Lehr- und Lernmethode

Lehrgespräche, Filmsequenzen, Fachinputs, Praxisbeispiele, praktische Tipps, Rollenspiele, Tools & Übungen und Einzel- und Gruppenarbeiten. Die Studierenden setzen sich aktiv mit Chancen und Herausforderungen der Nachhaltigkeit auseinander und lernen welche Rolle HRM-Prozesse dabei spielen (kann).

SHR4 - Die Rolle des HRM im Wandel hin zu nachhaltigen Organisationen - BWBh205

Fachliteratur	<p>Zu Beginn des Semesters wird auf Moodle Literatur zur Verfügung gestellt bzw. für die Kompetenznachweise durch die Studierenden recherchiert.</p> <p>1. Pflichtlektüre:</p> <p>NACHHALTIGKEIT IM PERSONALMANAGEMENT: https://www.hrtoday.ch/sites/default/files/2022-10/Nachhaltigkeit.pdf</p>
Workload	6 ECTS
Kontaktstudium	KW 8 - 23 Donnerstag jeweils 4 Lektionen (einzelne Teile davon werden als asynchrone Lerneinheiten konzipiert)
Präsenzpflicht	<p>Präsenzpflicht bei Exkursionen, Vorträgen von externen Referent:innen und Wissensbeiträgen, sowie für die Kompetenznachweise (drei Wissensprüfungen und Präsentation des Podcasts/Videoclips)</p> <p>Die Präsenzpflicht wird jeweils auf Moodle bekanntgegeben.</p>
Kompetenznachweis	<p>Der Kompetenznachweis besteht aus mehreren Teilen:</p> <p>1. KN: Drei Wissensüberprüfungen auf Moodle während des Semesters (60 %, individuell) 2. SIE1 - Customer Side of Innovation - BWBh301

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Gurtner Nadine, Gurtner Sebastian
Module responsibility	Sebastian Gurtner, Nadine Gurtner
Short description of the module	In this module, the role of the customer in the creation and diffusion of innovation is studied through a series of six interactive sessions and the participation in a co-creation challenge.
Requirements	Basic knowledge about the areas of innovation and entrepreneurship, as taught in the elective module "innovation and entrepreneurship".
Competencies upon completion	<p>Expertise: innovation management, esp. open innovation, customer insight, market research</p> <p>Methodological competencies: qualitative and quantitative methods of empirical social research, digital skills, project management</p> <p>Social skills: teamwork, presentation techniques, motivational skills</p> <p>Self-competencies: personal initiative, decisiveness, self-discipline</p>
Content	The customer is king. This old saying describes in a beautiful way the power the customer has when it comes to the success of innovations. For companies, customers are often equally the source of innovations as well as their judge. The customer will only buy a product that has a perceived benefit and only those products will succeed in the market. In this module, we will interactively explore why some innovations go viral while others fail miserably, what roles customers play in the development of innovations, and how to create value for customers.
Teaching and Learning method	The didactic concept of the course is interactive and divers. Students prepare one of six teaching units by studying the appropriate literature, carrying out a small empirical project as well as designing and conducting a workshop with the other students to transfer the knowledge of the teaching unit to practical application.
Literature	For each topic a basic set of literature is provided to the students.
Workload	180h
Contact lessons	on campus sessions will be every two weeks
Attendance requirement	every student needs to be present at min. 80 % of the on campus sessions

SIE1 - Customer Side of Innovation - BWBh301

Proof of competence

Types of assessments (percentage of overall individual grade)

Group work with individual assessment:

- Conducting and documenting a small explorative reasearch project (35%)
- Developing and presenting a teaching session as well as a workshop on a dedicated topic (35%)

Individual work with individual assessment:

- Individual lessons learned video (30%)

Mode of repetition

every spring semester

SMM3 - International Marketing Management - BWBh363

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Konya-Baumbach Elisa, Sichtmann Christina
Module responsibility	Elisa Konya-Baumbach, Sichtmann Christina
Short description of the module	<p>Many companies are generating an increasing proportion of their sales/profit abroad. The course seeks to provide an overview of key concepts and analytical techniques of global marketing and illustrate its role in the global economy. The course (taught in English language), enables students to appreciate the complexity, challenges, and opportunities in the context of marketing across borders. They will first learn about the challenges relating to international marketing and then how these can be successfully mastered.</p> <p>Goals: Students</p> <ul style="list-style-type: none"> • Know about the impact that culture has on international buyer behavior • Are able to evaluate the attractiveness of country markets and can develop a market entry strategy based on this evaluation • Know the fundamental challenges in international market research • Know the advantages and disadvantages of standardizing versus differentiating tactical marketing instruments (marketing mix) • Can apply their knowledge in the context of an online-based simulation, identify problems that arise and develop approaches to solving them
Requirements	marketing fundamentals
Competencies upon completion	<p>Professional competence: Students...</p> <ul style="list-style-type: none"> • Know the peculiarities of international marketing • Are able to develop and evaluate a go-to-market strategy for an international corporation • Are able to question and evaluate company activities relating to international marketing <p>Methodological competence: Students...</p> <ul style="list-style-type: none"> • Learn to organize themselves in a group • Conduct analyses and develop solutions under time pressure • Adapt their knowledge in response to different tasks • Expand their problem-solving competence • Connect theoretical underpinnings with practical tasks <p>Social competence: Students...</p> <ul style="list-style-type: none"> • Are able to critically question and reflect on their own reactions to challenges in international marketing • Actively deal with entrepreneurial realizations • Deal constructively with the views of others

SMM3 - International Marketing Management - BWBh363

Content

- Market entry decisions
- The timing of market entry.
- Market entry strategies.
- Designing the global marketing program.
- Implementing and coordinating the global marketing program
- Theoretical underpinnings of International Marketing
- Transfer of knowledge to real-world problems
- Practical examples

Teaching and Learning method

- Lecture and discussion
- Guest lectures
- Student presentations and coaching
- Online-based International Marketing Simulation
- Self-study
- Note: Students are expected to show a high degree of personal initiative

Literature

Recommended Literature: Kotabe, Masaaki und Kristiaan Helsen (2011), Global Marketing Management, 5. Auflage, John Wiley & Sons, Inc.

Workload

180 hours

Contact lessons

36-40 hours of classroom studies

140-144 hours self-study

Attendance requirement

yes, on simulation days and guest lectures

Proof of competence

- Self-reflection task based on group work/Online simulation (4-5 students per group); weight 50%, due at the end of the lecture period (graded individually)
- Individual task (Exam), weight 50% at the end of the semester (cw 26/27), 60 minutes, PC-based (Safe Exam Browser; Moodle)

Aids for written examination

- 1 printed (not electronic) bilingual dictionary in mother tongue - examination language
- The BFH calculator (TI-30 ECO RS)

SP03 - Ressourcenmanagement im Sport und Sportsystem - BWBh383

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Anderegg Urs
Modulverantwortung	Davide Condoni und Urs Anderegg
Kurzbeschreibung des Moduls	<p>Das Modul besteht aus den gleichberechtigten Themen «Ressourcenmanagement im Sport» und «Sportsystem Schweiz».</p> <p>Ressourcenmanagement im Sport</p> <p>Das sportliche Umfeld besteht aus unzähligen Ressourcen. Ein Sportmanager benötigt solide Kenntnisse, wie die relevanten Ressourcen zu beschaffen sind und wie diese effizient verwaltet werden. Erarbeitet wird anwendungsorientiertes Wissen im Bereich des Ressourcenmanagements an Beispiele von Sportevents, Leistungszentren und Sportinfrastrukturen in der Schweiz. Der Fokus liegt auf den vier Kernressourcen: Menschliche Ressourcen (Mitarbeiter, Ehrenamt etc.), finanzielle Ressourcen (Budgets, Kontrolle, Reporting, Audits etc.), Infrastruktur (Baukonzepte, Betriebskonzepte etc.) sowie Netzwerke und Kooperationen. Eine Sportinfrastruktur im Raum Bern wird besucht um den Praxistransfer sicherzustellen.</p> <p>Hauptdozierender: Davide Codon</p> <p>Sportsystem</p> <p>Um die relevanten Stakeholder in der Schweiz identifizieren zu können, braucht es Kenntnisse über das Schweizer Sportsystem und seine Akteure. Als Grundlage werden die Akteure dem Dritten Sektor, dem Markt Sektor und dem Öffentlichen Sektor zugeteilt sowie bezüglich ihrer Gründung, Organisation, Aufgabenbereiche und Finanzierung dargestellt. Daraus lassen sich die zentralen Instrumente und Programme dieser Akteure mit ihren entsprechenden Zielen ableiten, um Netzwerke und Kooperationen für die Umsetzung eines Sportevents oder eines Leistungszentrums mit entsprechender Sportinfrastruktur zu identifizieren.</p> <p>Hauptdozierender: Davide Condoni</p>
Eingangskompetenz	Grundlagen BWL und Marketing aus dem Grundstudium BBA/IBA, SPO2, GPS

SP03 - Ressourcenmanagement im Sport und Sportsystem - BWBh383

Kompetenz

Fach- und Handlungskompetenzen:

Die Studierenden sind in der Lage

- die Vielfältigkeit der Ressourcen im Sport zu erläutern.
- die Grundlagen des Ressourcenmanagements im Sport im Allgemeinen und für einen Sportevent sowie für das Funktionieren von Sportinfrastrukturen und Leistungszentren anzuwenden.
- eine Ressourcenbedarfsanalyse (z.B. Personal) zu erstellen.
- die Typologisierung der Akteure im Dritten Sektor, im Markt Sektor und im Öffentlichen Sektor darzustellen.
- die Funktionsweise der zentralen Instrumente und Programme der Schweizer Sportförderung auf nationaler Ebene darzustellen.
- eine Verbindung zwischen den Instrumenten und Programmen der Akteure und ihren entsprechenden Aufgaben und Ziele herzustellen.

Problemsolving/Umgang mit Komplexität:

Die Studierenden

- können ausgewählte Tools anwenden.
- entwickeln ein holistisches- und event-orientiertes Denken.
- lernen am Modell und wenden diese in der Realität an.

Kollaboration:

Die Studierenden

- können als Team/Gruppe Lösungen für konkrete Praxissituationen ausarbeiten.
- verbessern ihr professionelles und zielgruppengerechtes Auftreten und ihre Kommunikation.
- wenden Kooperatives Lernen an

Selbstmanagement:

Die Studierenden

- erkennen die Bedürfnisse und Erwartungen der wichtigsten Stakeholder aus dem Sportumfeld.
 - Bieten dar, tragen vor, präsentieren
 - erarbeiten Im Dialog, wenden an, analysieren, vernetzen, beurteilen
-

SP03 - Ressourcenmanagement im Sport und Sportsystem - BWBh383

Inhalt

- Human Ressource Management
- Infrastruktur
- Netzwerke und Kooperationen
- Sportorganisationen in den drei Sektoren: Zuweisungen der Organisationen im Modell
- Akteure im Dritten Sektor
Aufgaben, Organisation und Finanzen sowie Verflechtung der Akteure innerhalb des Sektors
- Akteure im Markt Sektor
Aufgaben, Organisation und Finanzen sowie Zusammenhang der Akteure Berufssituation und Einkommen von Athleten und Trainer
- Akteure im Staatlichen Sektor
Aufgaben, Organisation und Finanzen sowie Verflechtung der Akteure im staatlichen Sektor
- Nationale Grundlagenkonzepte von Swiss Olympic und des BASPO
- Überblick über die nationalen Förderinstrumente
- Netzwerke und Kooperation als Schwerpunkt der Blockwoche

Lehr- und Lernmethode

Vorlesung, Referate, Gruppenarbeiten, Case Studies, Diskussionen, Übungen, Selbststudium.

Fachliteratur

Für den Kompetenznachweis unerlässliche Literatur:

- Unterlagen der Dozierenden

Empfohlene Literatur:

- Lichtsteiner, H., Gmür, M., Giroud, C. & Schauer, R. (2020). Das Freiburger Management-Modell für Nonprofit-Organisationen. (Kap. 3). Bern, Stuttgart und Wien, Paul Haupt Verlag, 9. Auflage.
- Kempf, H. & Lichtsteiner, H. (2015). Das System Sport in der Schweiz und international. Magglingen: Bundesamt für Sport BASPO.

Zusätzliche, weiterführende Literatur:

- Literaturhinweise werden zu Modulbeginn abgegeben.

Workload

180 Stunden

Kontaktstudium

56 (inkl. Blockwoche und Blocktag).
Das Modul beinhaltet 6 Vorlesungen (4 Lektionen) während des Semesters, ein Blocktag und eine Blockwoche am Ende des Semesters (KW 24). Die genauen Daten werden bei Modulbeginn kommuniziert.

Präsenzpflicht

- Blocktag Samstag 23. März 2024, Besichtigung Sportinfrastruktur "Mobilier Arena Gümliigen»
- Blockwoche: 4 Tage: Di, 11. Juni 2024 bis Fr 14. Juni 2024 (1 Tag in Magglingen und drei Tage in Andermatt).

SP03 - Ressourcenmanagement im Sport und Sportsystem - BWBh383

Kompetenznachweis

- Schriftliche Einzel-Prüfung, 90 Minuten (50 %, Papierform, am Ende des Semesters, in offiziellen Prüfungswochen)
- Gruppenpräsentation (50 %, Gruppennote mit individueller Bewertung am Ende der Blockwoche)

Wenn die Endnote ungenügend ist, muss die inhaltliche schriftliche Einzelprüfung wiederholt werden.

Hilfsmittel bei schriftlicher Prüfung

- BFH - Taschenrechner (TI-30 ECO RS)
- gedrucktes Wörterbuch (Muttersprache - Sprache Kompetenznachweis)

Wiederholungsmodalitäten

Wenn die Endnote ungenügend ist, muss die inhaltliche schriftliche Einzelprüfung wiederholt werden.

Weiterführende, vertiefende Module

- Master Spitzensport an der EHSM
- CAS EHSM Strategie, Leadership und Governance in Sportorganisationen (SLGOV)
- CAS ESHM Strategische und nachhaltige Sportsystementwicklung (SNS)
- Executive Master of Business Administration (EMBA) in «Excellence in Sportmanagement»

Bemerkung

- Blocktag «Mobiliar Arena Gümligen». Detaillierte Angaben zum Programm (Kosten, Programm, etc.) folgen zu Semesterbeginn. Transport geht zulasten der Studierenden.
- Blockwoche: 1 Tag wird an der EHSM (Magglingen, ohne Übernachtung) stattfinden. 3 Tage in Andermatt (Vollpension inkl. Sportangebot). Detaillierte Angaben zum Programm (Kosten, Programm, etc.) folgen zu Semesterbeginn. Der Anteil der Kosten zu Lasten der Studierenden - Unterkunft, Mahlzeiten und Sportaktivitäten exkl. individuelle Reisekosten nach Magglingen und Andermatt - beläuft sich auf ca. 100 Franken.
- Maximale Studierendenzahl: 40

SP04 - Junior Agency Award - BWBh384

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	von Däniken Tina, Waldenmeyer Zoé
Modulverantwortung	Waldenmeyer Zoé, von Däniken Tina
Kurzbeschreibung des Moduls	<p>Ein Modul für Werbeprofis: Sie kreieren erarbeiten während dieses Semesters für einen realen Kunden eine Kampagne im Bereich Marketing / Kundenintegration (z.B. <i>Einführung eines neuen Produkts oder eine Marketingkampagne für das Unternehmen</i>) und lernen so am praktischen Beispiel, wie sie mit den Kundenanforderungen, der Kreativität und dem Budget arbeiten müssen. Sie werden dabei von LSA-Agenturen (Coaches) und den BFH Dozentinnen betreut. Am Schluss des Semesters findet die Preisverleihung statt, an der die Studierenden ihre Kampagnen präsentieren. Eine Experten-Jury bewertet die Kampagnen und verleiht den LSA Junior Agency Award ((LSA = LEADING SWISS AGENCIES)).</p>
Eingangskompetenz	<p>Marketing Grundmodul BMAR</p> <p>Problemlösungskompetenzen</p> <p>Kreativitätstechniken</p>

SP04 - Junior Agency Award - BWBh384

Kompetenz

Fachkompetenz

- Theorie- und Praxisrelevante Fachinhalte kennen, evaluieren, verstehen, anwenden, analysieren

Methodenkompetenz

- Problemlösung und kritisches Denken
- Wissenschaftliche Methoden
- Arbeitsmethoden, -techniken, und -verfahren
- Nutzung von Informationen
- Kreativität und Innovation

Sozialkompetenz

- Schriftliche und mündliche Kommunikation
- Teamarbeit

Selbstkompetenz

- Selbstmanagement und Selbstreflexion
- Ethische und soziale Verantwortung

Inhalt

In der ersten Phase erhalten alle teilnehmenden Studierenden an einem gemeinsamen virtuellen Meeting das Kundenbriefing sowie eine Einführung in die Kampagnenarbeit. Es werden Teams à 4-6 Studierende gebildet und LSA-Agenturen werden den Teams als Coaches zugeteilt. In der zweiten Phase beginnen die Studierenden mit Unterstützung ihrer Coaching-Agentur mit der Erarbeitung der Kampagne. Jedes Team vereinbart als erstes einen Kick-Off Termin mit seiner Agentur. Dann beginnt die Arbeit an der Kampagne. Weitere Meetings (Schulterblicke) werden mit der Agentur vereinbart (insgesamt 3-4 Meetings). Diese Meetings finden vorzugsweise in der Agentur statt, wenn dies nicht möglich ist, dann virtuell. Die Modulverantwortlichen seitens Schule übernehmen die interne Koordination und garantieren die fachliche Qualität des Studiengangs. In der dritten Phase geht es an die finale Ausarbeitung der Kampagne. Hier wird auch die Präsentation für den Wettbewerb fertiggestellt. Während des Schlussspurts ist eine enge Betreuung seitens Agenturen und Modulverantwortlichen garantiert. Am Ende des Semesters findet die Prämierung und Award Verleihung statt. Zuerst wird je ein Gewinner-Team pro teilnehmende Hochschule ermittelt, das dann gegen die Gewinner-Teams der anderen Hochschulen antritt. Eine Jury bewertet die präsentierten Kampagnen und wählt das finale Gewinner-Team des LSA Junior Agency Award 2024. Diese Award-Verleihung findet (sofern möglich) anlässlich eines Events mit anschließender Party statt, zu welchem alle Teilnehmer*innen des LSA Junior Agency Award 2024 eingeladen sind.

SP04 - Junior Agency Award - BWBh384

Lehr- und Lernmethode

Die Rolle der Agenturen (Coaches)

LSA-Agenturen begleiten und coachen die Studierenden während des Semesters. Sie stellen den Teams ihr Know-how und ihre Ressourcen zur Verfügung. Sie prüfen kritisch die Arbeiten, geben Feedback und helfen auch bei der Erarbeitung der Präsentationen. Die Agenturen gewähren den Studierenden Einblick in den Agenturalltag und in die Vielfalt der Agenturarbeit.

Die Rolle des LSA

LEADING SWISS AGENCIES garantiert die Verfügbarkeit von qualifizierten Coaching-Agenturen, koordiniert die gemeinsamen Termine und organisiert die Durchführung der Award-Verleihung. Der Verband stellt auch das Kundenbriefing. Zudem kommuniziert der LSA das Projekt auf den Kommunikationskanälen des Verbands und in den Fachmedien.

wichtige Termine

- 1 Gemeinsames Briefing (virtuell)
- Kick-off an der BFH mit Modulverantwortlichen
- Kick-off bei der Agentur
- Schulterblick-Meetings bei der Agentur / Coachings mit Modulverantwortlichen
- Generalprobe Präsentation bei der Agentur
- Vorausscheidung an den Hochschulen
- Award-Verleihung

Fachliteratur

keine, das Modul ist praxisorientiert

Workload

180 Stunden

Kontaktstudium

Sie entscheiden, wann Sie mit "Ihrer" Agentur in Kontakt treten.

Die Dozentinnen coachen Sie in drei Sprints.

Präsenzpflicht

- Gemeinsames Briefing mit LSA
- Kick-off BFH
- Kick-off bei der Agentur
- Generalprobe der Präsentation
- Award-Verleihung

SP04 - Junior Agency Award - BWBh384

Kompetenznachweis

Gruppenarbeit:

- Präsentationsunterlage für die Agentur: 50 %
- Schriftliches Worddokument, welches Ihre Ideen zusammenfasst: 50 %

(Gruppenbewertung)

Weiterführende, vertiefende Module

- Digitale Marketingstrategie
 - Consumer Behaviour
 - International Marketing
 - Brand Management
-

Bemerkung

Dieses Modul ist extrem anwendungsorientiert. Es bietet Ihnen die Möglichkeit, in einer Werbeagentur mitzuarbeiten - Sie sind Kundenberater, Copy Writer, Creative Director. Sie werden von den Profis sehr profitieren und - wer weiss - vielleicht sehen Sie Ihre Kampagne danach realisiert.

SP07 - Business Gaming - BWBh387

ECTS	6
Study language	English
Module type	Elective module
Module level additive	Advanced level
Lecturer(s)	Braun Aron, Noppeneys Claus
Module responsibility	Braun Aron; Noppeneys Claus
Short description of the module	<p>Business games provide exciting experiences and insights on what it means to manage a company in a competitive environment.</p> <p>This module is designed for students who want to gain hands-on experience in the strategic and operational management of a company in a (simulated) real-world setting. It is based on a sophisticated, challenging and engaging online business game in which the different student teams compete with each other.</p>
Requirements	No special admission requirements.
Competencies upon completion	<p>This module aims at imparting the following set of competencies. The students</p> <ul style="list-style-type: none"> • are able to analyse, interpret and discuss business data • Understand the complex and dynamic nature of strategic management • Learn how to navigate a company amid an ambiguous and uncertain environment • Can use appropriate decision making tools • Improve their ability to reach sound conclusions in a team • Improve their ability to develop and deliver professional business presentations • Learn how to identify and use suitable performance indicators
Content	<p>TOPSIM General Management, the online strategy game used in this module, simulates typical decision problems which management teams face in key areas of strategy, human resources, marketing, operations, finance and innovation management. Students experience challenging business situations from a managerial perspective. Thus, students can use and integrate various central concepts introduced throughout their studies. Extensive reports allow the participants to see the effects of their strategic decisions. Competition between the different student teams enhances the intensity and engaging character of the module.</p> <p>The module is centered around the simulation of 8 subsequent rounds (years) in which companies (student teams) compete against each other for the best business performance. In each round of the simulation, the discussion of the executive team culminates in decisions on a number of key parameters (e.g. pricing, staffing, product development, marketing etc.). Before each new round, an extensive report documenting the effects of the decisions from the last round is made available to the teams. As the game unfolds more and more decision parameters are introduced, increasing the complexity of the game.</p> <p>After 8 rounds the game is over. The final session is used to reflect on the experience and to honour the winners.</p>

SP07 - Business Gaming - BWBh387

Teaching and Learning method

The experience of playing the game in competing teams including analysis and interpretation of the complex market and company results is the central learning method of this module. Additional theory is typically taught in the form of short lectures, complemented with group exercises and discussions in the class.

The aim of the game is to simulate reality as closely as possible. Due to the high level of complexity, virtually all larger SMEs are typically managed by an executive team which jointly leads the company as one legal entity. Accordingly, students are forming "executive teams", each student being responsible for an area like HR, R&D, M&S etc. Like in real companies, all key strategic decisions are being taken jointly in the executive board, while smaller operational decisions are being taken individually by the respective executives. This governance principle is reflected in the module tasks and proof of competence.

Literature

SRE1 - Real Estate Investment - BWBh401

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Fankhauser Daniel, Rascón Alberto, Szélpal Boris
Modulverantwortung	Szélpal Boris, Rascón Alberto, Fankhauser Daniel
Kurzbeschreibung des Moduls	<p>Im Modul Real Estate Investment wird die Perspektive eines Investors eingenommen. Der Schwerpunkt liegt auf der nachhaltigen Verwaltung von direkten oder indirekten Immobilienportfolios. Die institutionellen Anleger sind verpflichtet, die Richtlinien, Ziele und Strategien der Organisation einzuhalten. Nachhaltige Immobilien sind sowohl eine Kapitalanlage als auch ein Motor der Wertschöpfung.</p>
Eingangskompetenz	<p>Die Studierenden haben das Grundstudium abgeschlossen.</p> <p>Die Studierenden haben das Finanzverwaltungsmodul und das Buchhaltungsmodul abgeschlossen bzw. sich dafür eingeschrieben.</p>

SRE1 - Real Estate Investment - BWBh401

Kompetenz

Fachliche Fähigkeiten:

Die Studierenden wissen, wie man Strategie- und Portfoliomodelle und die konkrete Umsetzung in einer Immobilienorganisation validiert.

Die Studierenden kennen die wesentlichen Merkmale von Portfoliomanagement und Investitionen für Immobilien.

Die Studierenden kennen die Merkmale ertragsorientierter Immobilieninvestoren und können diese von CREM-Verfahren und anderen ertragsorientierten Anlageformen abgrenzen.

Sie kennen die wichtigsten institutionellen Immobilieninvestoren in der Schweiz mit Strategie, Positionierung, Organisation und vertikaler Integration.

Methodische Fähigkeiten:

Die Studierenden sind in der Lage, die verschiedenen Konzepte der Investitionsrechnung im Kontext von Business Cases anzuwenden und zu bewerten.

Sie sind in der Lage, die geeigneten Methoden auszuwählen, die Berechnungen durchzuführen und die Ergebnisse und Lösungen in angemessener Weise zu präsentieren.

Sie sind in der Lage, zu den richtigen Schlussfolgerungen zu kommen und sollten daher in der Lage sein, die richtige Investitionsentscheidung zu treffen.

Soziale Fähigkeiten:

Die Studierenden sind in der Lage, Probleme in Arbeitsgruppen zu analysieren und zu diskutieren und dabei verschiedene Argumente zu berücksichtigen, zu bewerten, zu begründen und zu widerlegen.

Sie sind in der Lage, argumentative Diskussionen konstruktiv zu führen und sie klar von subjektiven Einstellungen zu trennen.

Selbstkompetenz:

Die Studierenden können sich selbst im Rahmen verschiedener Themen kritisch reflektieren und gegebenenfalls individuelle Konsequenzen ableiten.

Sie können mit Autonomie und Selbstorganisation umgehen und ihr persönliches Urteilsvermögen kritisch hinterfragen und schärfen.

Sie analysieren ihre Fähigkeit zur Stressbewältigung und kennen ihre Stärken und Schwächen.

Digitale Fähigkeiten:

Die Studierenden können den Zugang und die Nutzung digitaler Werkzeuge sicherstellen und diese effizient einsetzen.

Die Fähigkeiten zum Online-Lernen und zur digitalen Kommunikation mit Dozierenden werden gestärkt.

Inhalt

1. Einführung, Fachbegriffe, Performance-Modell und Immobilienökonomie
2. Schweizer Immobilienmarkt
3. Portfolio: Core
4. REIM: Real Estate Investment Management, Organisationsformen, Aufgaben
5. Transaktionsmanagement und Beispiel (Fall Due Diligence))
6. PREM + CREM + FM
7. Nachhaltige Immobilien und Denken in Lebenszyklen
8. Steuern
9. Finanzen

SRE1 - Real Estate Investment - BWBh401

Lehr- und Lernmethode	Das Modul wird auf Deutsch (80 %) und Englisch (20 %) unterrichtet. Vorlesungen, Übungen, Präsentationen, Fallstudien
Fachliteratur	Verschiedene Papiere und Dokumente werden im Unterricht zur Verfügung gestellt. Empfohlene Literatur: Hartzell, D., & Baum, A. E. (2021). Real Estate Investment and Finance: Strategies, Structures, Decisions. Wiley.
Workload	180 Stunden
Kontaktstudium	14 x 4 Lektionen (45 Minuten)
Präsenzpflicht	Wann immer es einen Gastredner gibt: Der genaue Zeitplan wird in der 1. Unterrichtsstunde mitgeteilt
Kompetenznachweis	Die Endnote ergibt sich aus dem Durchschnitt von 3 Tests, die während dem Unterricht abgelegt werden.
Hilfsmittel bei schriftlicher Prüfung	Open Book Test
Wiederholungsmodalitäten	Wiederholung des nicht bestandenen Tests bei der nächsten Durchführung.
Weiterführende, vertiefende Module	N/A
Studiengang, Semester	BSc International Business Administration, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 8 FS, TZ, Bern BSc International Business Administration, 2023-2024, 4 FS, VZ, Bern BSc International Business Administration, 2023-2024, 6 FS, TZ, Bern BSc Betriebsökonomie, 2023-2024, 4 FS, TZ, Bern BSc Betriebsökonomie, 2023-2024, 4 FS, VZ, Bern BSc Betriebsökonomie, 2023-2024, 6 FS, VZ, Bern BSc International Business Administration, 2023-2024, 4 FS, TZ, Bern BSc Betriebsökonomie, 2023-2024, 8 FS, TZ, Bern BSc Betriebsökonomie, 2023-2024, 6 FS, TZ, Bern

SRE2 - Real Estate Development - BWBh402

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Szélpal Boris
Modulverantwortung	Prof. Dr.-Ing. Boris Szélpal
Kurzbeschreibung des Moduls	<p>Im Modul Immobilienentwicklung wird die Sicht des Entwicklers und der Eigentümerin von Immobilien oder Arealen eingenommen. Die Bedürfnisse der Menschen bei der Entwicklung von Immobilien werden in Zielgruppen- und Nutzungskonzepte transformiert. Städtebauliche und architektonische Konzepte werden vermittelt. Prozesse und Planungsinstrumente dienen als wichtige Entscheidungsgrundlage für alle Stakeholder. Mit guter Projektkommunikation und einer ergebnisorientierten Zusammenarbeit können Entwicklungsprojekte gut strukturiert werden.</p> <p>«Immobilienentwicklung ist Zukunftsgestaltung! » (Senem Wicki)</p>
Eingangskompetenz	Die Studierenden haben das Grundstudium abgeschlossen.
Kompetenz	Die Studierenden kennen Akteure und die Organisation einer Projektentwicklung und können einen Entwicklungsprozess strukturieren. Die Studierenden kennen Prozess und Methoden in der Projektentwicklung. Sie können Ergebnisse von Objektanalysen beurteilen. Die Studierenden verstehen Kriterien über die Nachhaltigkeit bei einzelnen Beispielen und deren Methoden für eine erfolgreiche Projektentwicklung.
Inhalt	<ol style="list-style-type: none"> 1. Einführung: Fachbegriffe, Immobiliendevelopment, Leitimmobilie, Kompetenznachweise 2. Mensch und Bedürfnisse 3. Stadt und Quartiere (Visionen) 4. Architektur und Nutzung 5. Objekt und Exkursion 6. Projektentwicklung: Weiterentwicklung der Abschlussarbeit 7. Gast: Nachhaltige Arealentwicklung am Beispiel der Zug Estates AG 8. Architekturpsychologie 9. Gast: Immobilienentwicklung bei der Pensionskasse der Technischen Verbände, Bern 10. Prozesse: Partizipation, Kommunikation, Bedarfsplanung (Blumenhaus und Riverside) 11. Stakeholdermanagement: Zusammenarbeit, Organisation und Zielgruppen 12. Beispiele: Attisholz und Klybeck und Schönberg Ost 13. Schlusspräsentation Studierende, Boris Szélpal und Gäste
Lehr- und Lernmethode	<ul style="list-style-type: none"> • Vorlesungen (input) • Gruppenreflexion als Einstieg in den neuen Tag (15 Min.) • Besichtigung Immobilie (Exkursion) • Workshops und Gruppenarbeiten • Übungen und Diskussionsrunden • Coachingtermin 1x pro Gruppe • Sprechstunde 1x pro Woche (MS Teams) • Präsentation Abschlussarbeit in der Gruppe (output) • Mündliches Feedback zur Abschlussarbeit • Schriftliches Feedback zur Abschlussarbeit

Workload

6 ECTS x 30 Stunden = 180 Stunden

12 Tage Präsenzunterricht = 180 Stunden

- Vorbereitungen = 15 Stunden
- Vorlesungen = 50 Stunden (max. 2 Tage online)
- Test = 20 Stunden
- Abschlussarbeit = 50 Stunden
- Coaching/Workshop = 10 Stunden
- Fachliteratur = 20 Stunden
- Nachbereitung Vorlesungen = 15 Stunden

Kontaktstudium

Vorlesungen vor Ort in Bern:
Jeweils am Donnerstag Nachmittag von 12.35 bis 16.00 Uhr (4 Lektionen)

Präsenzpflicht

80 % Anwesenheitspflicht (12 Tage = 100 %)

Kompetenznachweis

- Test als Einzelarbeit (60 Min. auf Moodle: Multiplechoice, open book, Gewichtung 40 %). 11. April 2024.
- Entwicklungsprozess strukturieren (Projektentwicklung als Gruppenarbeit, 2-3 Pers., Gruppenbewertung, Gewichtung 40 %). 13. Juni 2024.
- Schlusspräsentation vor Gästen und Dozierenden (Gruppenbewertung, Gewichtung 20 %). 13. Juni 2024.

Hilfsmittel bei schriftlicher Prüfung

Open book

Wiederholungsmodalitäten

Die Vertiefung Real Estate Development (RED) kann 1x wiederholt werden. Wenn die Einzelarbeit nicht bestanden wird und der Entwicklungsprozess bestanden ist, muss nur die Einzelarbeit wiederholt werden (gilt auch umgekehrt). Nachprüfungen nach Absprache.

Weiterführende, vertiefende Module

- Vertiefung Real Estate Investment (REI) jeweils im Frühlingsemester
- Vertiefung Real Estate Valuation jeweils (REV) im Herbstsemester

SRE2 - Real Estate Development - BWBh402

Bemerkung

Immobilienmanagement ist das ganzheitliche, nachhaltige und lebenszyklusorientierte Management von Immobilien, insbesondere das Bewerten, Entwickeln und Investieren von Immobilien zum Zwecke eines langfristigen optimalen Einsatzes der Ressource Immobilie über den ganzen Lebenszyklus.

Konzept der Vertiefung im Real Estate:

- Real Estate Investment (REI)
- Real Estate Development (RED)
- Real Estate Valuation (REV)

SSB2 - Circular Business Models - BWBh322

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Meili Rahel, Stucki Tobias
Modulverantwortung	Rahel Meili, Tobias Stucki

Kurzbeschreibung des Moduls

Die Kreislaufwirtschaft wird sowohl in der Privatwirtschaft wie auch in der Politik zunehmend wichtiger. Die Kreislaufwirtschaft ist ein sehr umfassendes Konzept der Nachhaltigkeit. Neben einer effizienteren Nutzung von bestehenden Ressourcen geht es auch um die Verlängerung und Schliessung von Ressourcenflüssen. Interdisziplinäres, bereichs- und oft auch unternehmensübergreifendes Denken wird für eine erfolgreiche Umsetzung benötigt. Dies stellt Unternehmen oft vor grosse Herausforderungen bei der Umsetzung. Ziel dieses Moduls ist es die Umsetzung eines zirkulären Unternehmensmodells in Unternehmen und Organisationen zu üben. Dazu wird in einem ersten Schritt relevantes Wissen vermittelt, welches dann in einem zweiten Schritt konkret angewendet werden kann.

Eingangskompetenz

- Sie kennen die wichtigsten Grundbegriffe, Konzepte und Modelle des nachhaltigen Wirtschaftens.
- Sie erkennen (aktueller und zukünftiger) ökologische, soziale und wirtschaftliche Probleme und Herausforderungen und können ihre Bedeutung und ihre Wechselwirkung mit der heutigen Weltwirtschaft einschätzen.
- Sie haben ein Verständnis für die komplexen Wechselwirkungen zwischen Wirtschaft, Politik, Gesellschaft (z.B. Konsumenten) und natürlicher Umwelt.
- Sie kennen wirtschaftliche und unternehmerische Konzepte und Ansätze im Zusammenhang mit nachhaltiger Entwicklung und können diese an realen Beispielen beurteilen.
- Sie verstehen das Konzept des ökologischen und sozialen Fussabdrucks (Ökobilanz) von Produkten, Prozessen und Unternehmen und können diesen interpretieren.
- Sie haben ein Verständnis über die Nachhaltigkeit des individuellen Konsums.

Kompetenz

- Sie verstehen das Konzept der Circular Economy und können dieses von anderen Nachhaltigkeitskonzepten abgrenzen.
- Sie kennen zirkuläre (Geschäfts-)Modelle und können eine Implementierung im konkreten Umfeld konzipieren.
- Sie kennen die Idee der Lebenszyklusbewertung zur Bestimmung der Umweltbilanz von Produkten, Prozessen und Unternehmen.
- Sie kennen die Chancen und Risiken der Transformation von einem linearen zu einem zirkulären Unternehmensmodell.
- Sie kennen relevante Instrumente aus dem Bereich Sustainable Management, welche für die Umsetzung der Kreislaufwirtschaft in der Unternehmensstrategie benötigt werden.
- Sie können diese Tools auf beliebige Unternehmen und Organisationen adaptieren.

Inhalt

Einführung in das Konzept der Kreislaufwirtschaft:

- Grundlagen und Bedeutung der Kreislaufwirtschaft aus der Sicht der Wirtschaft und Gesellschaft.
- Zirkuläre (Geschäfts-)Modelle konzipieren und umsetzen
- Analyse von Best Practice Beispielen
- Einführung in die Lebenszyklusbewertung zur Bestimmung der Umweltbilanz von Produkten
- Die Rolle des Industriedesigns für die Umsetzung der Kreislaufwirtschaft in der Praxis
- Umsetzung anhand von spezifischen "Live Case"-## Projekten: Entwicklung und Umsetzung eines zirkulären Geschäftsmodells an einem konkreten Unternehmen/Organisation

SSB2 - Circular Business Models - BWBh322

Lehr- und Lernmethode

Die Vorlesung ist auf dem Prinzip des Flipped Classroom aufgebaut. Flipped Classroom ist ein Blended-Learning-Unterrichtsmodell, bei dem sich die Studierenden selbständig mit Literatur vertraut machen oder ein Video ansehen müssen. Während des Unterrichts liegt der Schwerpunkt in erster Linie auf fallbasierter praktischer Arbeit (allein und in Gruppen), bei der das neue Wissen angewendet werden kann.

Um die verschiedenen Facetten der Kreislaufwirtschaft kompetent abdecken zu können wird es auch Gastvorträge und Inputs aus der Praxis geben.

Im zweiten Teil sollen die Studierenden anhand von spezifisch ausgewählten «Live Cases» die Chancen und Herausforderungen einer Umstellung von einem linearen zu einem zirkulären Unternehmensmodell erkennen.

Fachliteratur

Die Literatur wird spezifisch für den Unterricht zusammengestellt und auf Moodle verfügbar gemacht.

Workload

180 Stunden

Kontaktstudium

14 x 4 Lektionen - 3 Stunden pro Woche

Präsenzpflicht

Es wird spezifisch für dieses Modul ein Besuch bei der Firma Girsberger organisiert. Dieser ist für alle Moduleteilnehmer verpflichtend!

Generell:

Es wird bei diesem Modul wenig Frontalunterricht geben, denn es geht darum, das Wissen anzuwenden. Diese Anwendung kann zu Hause kaum individuell eingeübt werden.

Im Fokus dieses Moduls steht aber die Anwendung des Wissens auf konkrete Unternehmen. Im zweiten Teil des Moduls wird deshalb primär in Gruppen gearbeitet und die Präsenz vor Ort reduziert.

Umso wichtiger ist es aber, dass der Unterricht vor Ort besucht wird.

Kompetenznachweis

Der Kompetenznachweis besteht aus drei Teilen:

- Schriftliches Peer-Feedback, welches individuell verfasst wird (30 % der Endnote)
- Gruppenpräsentation zu einem "Live Case" im Bereich der Kreislaufwirtschaft (40 % der Endnote)
- Schlussreport zu diesem "Live Case", welcher dann auch an das Unternehmen ausgehändigt werden kann (30 % der Endnote)

Für die Präsentation und den Schlussreport gibt es eine Gruppenbewertung, da die Studierenden in Gruppen spezifische Cases bearbeiten. Das Thema der Kreislaufwirtschaft ist sehr vielschichtig. Es ist deshalb wichtig, dass dieses Thema aus verschiedenen Perspektiven beleuchtet wird. Das Erarbeiten der Arbeit in der Gruppe ist zentraler Bestandteil dieses Moduls.

Wiederholungsmodalitäten

Das Modul kann bei der nächsten Durchführung wiederholt werden.

Weiterführende, vertiefende Module

Dieses Modul ist Teil der Vertiefungsrichtung "Sustainable Business". Es kann auch unabhängig von den anderen Modulen besucht werden.

SWD1 - Law for Business - BWBh421

ECTS	6
Unterrichtssprache	Deutsch
Modultyp	Wahlpflichtmodul
Modulniveau Zusatz	Hauptstudium
Dozierende	Koch Rika
Modulverantwortung	Prof. Dr. Rika Koch
Kurzbeschreibung des Moduls	<p>Vor dem Hintergrund der fortschreitenden Digitalisierung und der zunehmenden Regulierung sind juristische Fragestellungen auch im Businesskontext präsenter und wichtiger als je zuvor. Nicht nur Jurist*innen sollten das Recht kennen, sondern alle, welche in einem Unternehmen tätig sind.</p> <p>Das Modul Law for Business vermittelt Studierenden die Grundlagen des Rechts im digitalen Zeitalter. Sie lernen welche rechtlichen Gesellschaftsformen bei der Gründung eines Unternehmens gewählt werden können. Es wird ihnen vermittelt, was in wichtigen Firmenverträge enthalten ist und wie man mit AGBs umgeht. Ausserdem lernen sie, wie branchenspezifische Gesetze entstehen und wie diese die Unternehmensführung beeinflussen können. Je nach Interessenslage können aktuelle juristische Themen diskutiert werden.</p> <p>Daneben liegt ein weiterer Schwerpunkt auf «Soft-skills» wie Vertragssprache (deutsch und englisch), Aufbau eines juristischen Arguments, Verstehen von Gerichtsurteilen und dem Üben von Auftrittskompetenzen.</p>
Eingangskompetenz	<p>Voraussetzung für den Besuch der Vertiefungsrichtung (Module 1-3) ist der Besuch der Vorlesung "Wirtschaftsrecht" oder eine vergleichbare juristische Ausbildung. Der Nachweis einer gleichwertigen Ausbildung steht den Studierenden offen, der Entscheid über die Gleichwertigkeit liegt bei der/dem Dozierenden. Studierende, welche noch nie juristische Fächer belegt haben, können dies während des Semesters nachholen.</p>
Kompetenz	<ul style="list-style-type: none"> • Erkennen und Beurteilen von verschiedenen Gesellschaftsformen • Verträge und AGB lesen und entwerfen • Grundlagen der Rechtsetzung • Juristisches Schreiben • Kollaboratives Erarbeiten von Lösungsansätzen für offene, interdisziplinäre Fragestellungen • Schriftliche und mündliche Kommunikationsfähigkeit: Schulung der Auftrittskompetenz und dem juristischen Schreiben • Passive und aktive Kritikfähigkeit: Erteilen von konstruktiven Feedbacks an Mitstudierende
Lehr- und Lernmethode	<p>Das Modul wird verschiedene Lernformen kombinieren. Die Anteile an Vorlesungen, Selbststudium und Coachings werden vor Semesterbeginn oder laufend bekannt gegeben.</p>

SWD1 - Law for Business - BWBh421

Fachliteratur

Modul 1 basiert auf folgenden Lehrbüchern:

- Kähr, Michel, Repetitorium Gesellschaftsrecht, 4. Auflage 2020.
- Herzog, Julian und Andreas Lienhard, Übungsbuch Obligationenrecht Besonderer Teil, 2. Auflage 2019.

Empfohlene Literatur:

- Schneider, Wolf: Deutsch! Das Handbuch für attraktive Texte, 2007.

Empfohlene Podcasts:

- 100 Bundesgerichtsentscheide, Dr. Phil Baumann (<https://open.spotify.com/show/4txurK6TeSLNUHtWxjYBlx>)
- Datenschutzplaudereien, Podcast der Datenschutzpartner (Martin Steiger und Andreas von Gunten) <https://www.datenschutzpartner.ch/podcast/>

Weitere Literatur wird vor Semesterbeginn bekannt gegeben und wird je nach den von den Studierenden gewählten Fallbeispielen von «Start-ups» ergänzt.

Workload

6 ECTS, also 180 h.

Kontaktstudium

Das Modul ist mit 14 x 4 Wochenlektionen geplant. Davon erfolgt ca. die Hälfte im Kontaktstudium (also durchschnittlich 2 Doppelstunden x Woche). Der Rest ist Selbststudium, das je nach Präferenz in Gruppen oder individuell absolviert werden kann. Genaueres wird in der ersten Stunde bekannt gegeben.

Präsenzpflicht

-

Kompetenznachweis

Der Kompetenznachweis setzt sich zu je der Hälfte zusammen aus:

Präsentation während des Semesters (Thema in Absprache mit Dozentin) zu einem Gerichtsentscheid, zu einem verhandelten Vertrag, zu AGB oder zu einem im Vorfeld abgesprochenen Thema (10-15 Minuten, 50 % Gewichtung).

Mündliche Prüfung in der KW 25. Die Studierenden werden im Vorfeld in diesem Prüfungsformat geschult (15 Minuten, 50 % Gewichtung).

Hilfsmittel bei schriftlicher Prüfung

-

Wiederholungsmodalitäten

Wiederholungsprüfungen für krankheitsbedingte Ausfälle möglich.

Weiterführende, vertiefende Module

Die Module 2 ("Öffentliches Wirtschaftsrecht") und 3 ("Digitalrecht") der Vertiefungsrichtung "Wirtschaft und Digitalrecht" sind die weiterführenden und vertiefenden Module zum Modul 1 ("Law for Business").

EAWE - Academic Writing in English - BWBh007

ECTS	3
Study language	English
Module type	Optional module (countable)
Module level additive	Advanced level
Lecturer(s)	Sichtmann Christina
Module responsibility	Sichtmann Christina
Short description of the module	Students who decide to study or work in international environments require the ability to conduct research in English and write academic papers and reports using standard stylistic and formal conventions. In this course, students will learn how to read and write academic papers. In addition, they will get to know and apply basic writing techniques that help them to better write and structure academic texts in English.
Requirements	This optional module is targeted at and designed for students with a minimum C1 level. There are only a limited number of places available.
Competencies upon completion	<p>Subject: Students</p> <ul style="list-style-type: none"> - can use their own research to write academic papers in English at a C1 level of competence and above <p>Method: Students</p> <ul style="list-style-type: none"> - can plan and execute an academic writing project to a fixed deadline - can transform raw data and the research of others into standard academic prose - can apply formal and stylistic conventions to their own written texts - can reflect critically on their own writing and the writing of others - can apply creative writing techniques such as freewriting and clustering <p>Social: Students</p> <ul style="list-style-type: none"> - can give and receive feedback in an appropriate manner - can participate in the discourse community of English-language study programmes <p>Self: Students</p> <ul style="list-style-type: none"> - can manage the temporal and intellectual demands of an academic writing project - can apply their own critical reflection and that of others towards improving their English-language competence - can perform confidently and successfully in English-language academic context
Content	The course has been designed with the aims to provide students with the skills and knowledge to write a paper in the context of university systems
Teaching and Learning method	The course combines theory and practice. Writing, peer review, and revising takes place in almost every class to create a collaborative learning environment. Outside of class, students will be required to read in preparation for class discussions, work on an academic paper and write a daily diary. Scripts will be provided by the lecturer and uploaded to Moodle.

EAWE - Academic Writing in English - BWBh007

Literature	There is no specific literature required for this class. Weekly readings will be provided to generate an academic discourse.
Workload	90 hours
Contact lessons	28 lessons
Attendance requirement	There is no mandatory attendance for this module.
Proof of competence	<p>Although attendance is not mandatory, it is required that all assignments reflect the content that is presented in the weekly input and scripts.</p> <p>Individual Written Project</p>

EG4B - German for Beginners - BWBh011

ECTS	2
Study language	German
Module type	Optional module (countable)
Module level additive	Advanced level
Lecturer(s)	Brohy Claudine Henriette
Module responsibility	Andrea Wehrl In spring semester 2024 this module will be lectured by Claudine Brohy.
Short description of the module	Knowledge of German is not a requirement for this course. The objective is to convey basic abilities that will enable students to feel more comfortable in a new University context and to actively participate in everyday and student life in a German-speaking environment. It addresses topics such as making contact, studies and work, travel and countries, shopping, home living as well as cultural experiences when living in a multilingual environment. The course content focuses on systematically developing the necessary vocabulary and its communicative use for reading, speaking and writing. The development of grammatical structures is integrated into the subject matter and verbal exercises in a manner that fulfils these communicative objectives.
Requirements	-

Aids for written examination	<p>none</p>

IBTH - Bachelor-Thesis - BWIh993

Mode of repetition

If the written work is graded 3.5, the assessors may allow the possibility of rectification within 20 working days. The presentation date will be rescheduled in case of successful rectification.

If the oral part (presentation and defence) does not receive a passing grade, it is possible to repeat the oral part one more time.

The module can be repeated once. A new topic entry (Thesis Concepts) can be submitted at any time. The students receive an individual schedule from the module manager from the time of the re-entry of the topic. The process is the same (time, sequences) as in the 1st attempt, but can be run faster.

Continuative, in depth modules
